WHERE WE ARE

- Offices where CPS cases are concentrated
- Increase access with attention to proximity and psychosocial needs

MISSION: WHY ARE WE HERE?

Overdiagnosis

Overmedication

Overutilization of services

Fragmented mental health treatment +

Poor outcomes

MISSION: WHY ARE WE HERE?

- Decreased psychotropic medications 90%
- Decreased hospitalizations by 62%
- Decreased placement disruptions by 52%
- Facilitated achievement of permanency 38%

HOW WE DO IT

- Team-based treatment planning
- Family focus – see the forest for the trees
- Recruitment of experienced professionals
- Training and development to stabilize personnel
- Accountability - track and report outcomes

THE FUTURE: WHAT WILL WE DO?

- Provide care for up to 300 foster families
- Continue to track and report outcomes
- Create robust outpatient substance abuse treatment center for minors
- Validate new intensity-of-need instrument
- Improve mental health infrastructure: forensic, clinical training (UNSOM & UNLV), workforce, collaboration, advocacy
