*All Other Counties: Churchill, Douglas, Elko, Esmeralda, Eureka, Humboldt, Lander, Lincoln, Lyon, Mineral, Nye, Pershing, Storey, and White Pine County. For 2022, "All other Counties" experienced two cases in Nye County, Nye County 2022 TB rate 4.0.

**AI/AN: American Indian/Alaska Native

Technical Notes:

†Rate is the crude rate based on the incidence of verified TB cases per 100,000 population for that subgroup's population. Population data are made available from the Nevada State Demographer vintage 2021 population data.

~Relative Standard Error (RSE): The publication contains counts under 12, please use caution when interpreting the data as the RSE is greater than 30%.

N/A (Not Applicable) indicates cases where the data may not meet the criteria for reliability, data quality, or confidentiality due to small counts or inability to calculate rates based on an equivalent population. N (Number) is the basic measure of disease incidence in the total population. n (number) is the basic measure of disease incidence for a given subpopulation, such as sex, race/ethnicity, or age. % (Percentage) within each demographic subset which represents the percentage of the number of the specific demographic out of the total number of verified counted TB cases (N).
