Table 63: Percentage of middle school students who reported that their friends feel it would be wrong for them to smoke tobacco 63

Table 64: Percentage of middle school students who reported that their friends feel it would be wrong for them to smoke marijuana 64

Table 65: Percentage of middle school students who reported that their friends feel it would be wrong for them to use prescription drugs not prescribed to them..... 65

PHYSICAL ACTIVITY 66

Table 66: Percentage of middle school students who did not participate in at least 60 minutes of physical activity on any day during the 7 days before the survey 66

Table 67: Percentage of middle school students who were physically active at least 60 minutes/day on 5 or more days during the 7 days before the survey 67

Table 68: Percentage of middle school students who were physically active at least 60 minutes/day on all 7 days before the survey 68

Table 69: Percentage of middle school students who spent 3 or more hours per day on screentime..... 69

Table 70: Percentage of middle school students who attended physical education (PE) classes on one or more days in an average school week 70

Table 71: Percentage of middle school students who attended physical education (PE) classes daily 71

Table 72: Percentage of middle school students who had 9 or more hours of sleep on an average school night 72

RESILIENCY FACTORS 73

Table 73: Percentage of middle school students who talked to their parents or other adults in their home about their problems 73

Table 74: Percentage of middle school students who talked to their parents about what is right and wrong 74

Table 75: Percentage of middle school students who felt comfortable talking to their parents about personal matters..... 75

Table 76: Percentage of middle school students who felt close to people at their school..... 76

Table 77: Percentage of middle school students who were happy to be at their school..... 77

Table 78: Percentage of middle school students who reported that the teachers at their school treat students fairly..... 78

OTHER 79

Table 79: Percentage of middle school students who went hungry because there was not enough food in their home during the 30 days before the survey 79

Table 80: Percentage of middle school students who visited a dentist during the 12 months before the survey 80

Table 81: Percentage of middle school students who they themselves or someone in their home ever tested positive for COVID-19 81

INTRODUCTION

Priority health risk behaviors (i.e. preventable behaviors that contribute to the leading causes of morbidity and mortality) are often established during childhood and adolescence and extend into adulthood. Ongoing surveillance of youth risk behaviors is critical for the design, implementation, and evaluation of public health interventions to improve adolescent health. The Youth Risk Behavior Survey (YRBS) is a national surveillance system that was established in 1991 by the Centers for Disease Control and Prevention (CDC) to monitor the prevalence of health risk behaviors among youth. YRBS data are routinely collected on high school students, but only a few states collect data in middle schools. The Nevada Middle School YRBS is biennial, anonymous and voluntary survey of students in 6th through 8th grade in regular public, charter, and alternative schools. Students self-report their behaviors in five major areas of health that directly lead to morbidity and mortality, these include:

- 1) Behaviors that contribute to unintentional injuries and violence;
- 2) Tobacco use;
- 3) Alcohol and other drug use;
- 4) Unhealthy dietary behaviors; and
- 5) Physical inactivity.

The Nevada Division of Public and Behavioral Health contracted with the University of Nevada, Reno, School of Public Health to conduct the YRBS in all middle schools throughout the state. The 2021 Nevada Middle School YRBS provides statewide data to assess priority health-risk behaviors among middle school students; measure progress toward achieving national health objectives for *Healthy People 2030* and other program and policy indicators; and evaluate the impact of school and community interventions at the national, state, and local level. It is our intention that these data will be used by education and health professionals, policy makers, community members, and researchers to improve the health of Nevada's middle school students.

METHODS

Sampling, Weighting, and Analysis

The 2021 Nevada YRBS sampling plan was designed to ensure that every eligible student had an equal chance of selection. A random cluster sample design was used to produce a representative sample of students in grades 6-8 (all Nevada regular public, charter, and alternative middle schools). In order to provide regional data that represent all counties in the state, all 17 school districts were grouped into 8 regions that generally reflect the Nevada Statewide Coalition Partnership (Table 1). The regional grouping also helped ensure that individual schools could not be identified. Next, classes were randomly selected within every school with the probability based on a required margin of error in the sample size for each region. Intact classes of either all second period or all required English courses were randomly selected from each school. The questionnaire was administered to all students in sampled classes from September 2021 to December 2021. The 2021 Nevada YRBS administration was delayed from the spring semester to the fall semester due to the COVID-19 pandemic and subsequent

school closures. Additionally, certain questions asking about events that occurred on school property were removed from the 2021 YRBS due to the COVID-19 pandemic-related school closures (Table 2).

The 2021 Nevada YRBS data in this report were weighted based on the sex, race/ethnicity, and grade level of students in each region. The weighting process ensured that the estimates accurately represent the entire student population in each region and the state as a whole. Non-response or poor sampling procedures can result in a sample that is not a representative subset of the population; therefore, un-weighted results from these samples may not accurately reflect student behaviors and could be misleading. This report only displays weighted results.

NOTE: Because 2021 YRBS data were collected spring semester rather than fall semester, the students were younger on average. Age can influence the risk behavior prevalence estimates. When comparing 2021 data to other years, please refer to the UNR trend reports which weight the data by age for all years compared.

Table 1: 2021 YRBS sampling regions and Nevada Statewide Coalition Partnership

Region	School District	# Schools	Nevada Statewide Coalition Partnership
1	Carson City	2	Partnership Carson City
2	Douglas County	3	Partnership Douglas County
3	Elko County White Pine County Eureka County	10	Pace Coalition
4	Churchill County Humboldt County Pershing County Lander County	5	Churchill Community Coalition Frontier Community Coalition

7	Washoe County	21	Join Together Northern Nevada
8	Clark County	63	Care Coalition PACT Coalition

Table 2: School-property related questions removed in 2021 due to COVID-19

Section	Question
Violence-related behaviors	During the past 12 months, how many times has someone threatened or injured you with a weapon such as a gun, knife, or club on school property?
	During the past 12 months, how many times were you in a physical fight on school property?
	During the past 12 months, have you ever been bullied on school property?
Physical Activity	During the past 12 months, on how many sports teams did you play?

Permission Status and Response Rates

The Nevada legislature passed SB69, which requires Nevada public, charter, and alternative secondary schools to participate in the Nevada YRBS. SB69 also requires passive parental permission for YRBS participation. Passive parental permission means the students take a permission form home and return it only if their parent or guardian does not want them to participate in the survey. In 2021, 15 of the 17 school districts participated in the 2021 Middle School YRBS and only 6 middle schools across the state did not participate (121 potential respondents). Overall, 5,777 youth from 115 schools completed the survey. Table 3 shows school district and overall response rates.

Table 3: 2017, 2019, & 2021 YRBS response rates by school district

District	2017 YRBS Response Rate	2019 YRBS Response Rate	2021 YRBS Response Rate
Carson City School District	93.2%	90.5%	85.0%
Churchill County School District	75.1%	80.5%	76.5%
Clark County School District	60.7%	60.7%	69.2%
Douglas County School District	47.1%	54.2%	87.3%
Elko County School District	84.8%	70.3%	78.4%
Esmeralda County School District	33.3%	---	---
Eureka County School District	91.3%	100.0%	---
Humboldt County School District	88.9%	90.1%	91.2%
