Informational Notice; Re: Renewals

Date: December 2, 2021
Topic: Technologist Licensure/Registration Renewals
Contact: Radiation Control Program
To: All Renewing Technologists

This notice pertains to all individuals renewing their licenses/registrations with the Radiation Control Program (RCP) with the State of Nevada.

The RCP has been and will continue to mail out personal WebIDs and instructions to all individuals who have registered with the State of Nevada, and you will be able to sign up as an existing account within the Online Registration/Licensing System. **Please wait until you receive this letter via US mail before initiating the renewal.**

The renewal letters are being issued approximately **45 days** in advance of the expiration dates stated on your certificate. If you do not receive this notice and have less than 20 days from the expiration date, please contact us at either radiationcontrolprogram@health.nv.gov or (775) 687-7550.

We have divided all applications into various batches of expirations to accommodate the over 2700 technologists who have applied with the RCP.

For those who still have a Provisional Authorization Letter (PAL), it is active, valid, and continues to act-in-lieu of an official licensure certificate until it is either replaced by an official certificate, denied, or revoked by the RCP. We will contact you separately to provide you with a proper certificate.

Note: Mailing Address Change: It is required of a license holder to notify RCP within 10 business days after such a change, pursuant to Adopted Regulation R074-19. Please use the Change of Address Form located on our website.

Please visit the RCP website for updates and forms linked: [here](#).

For More Information: Please contact DPBH / RCP, M-F 8:00 AM to 5:00 PM at (775) 687-7550. Questions can be emailed to radiationcontrolprogram@health.nv.gov
