OSCaR 2014
& the Continuum of Care

Behavioral Health and Wellness Council
February 26th, 2014
Dick Steinberg
Dan Musgrove
OSCaR – One System of Care and Resources will:

- ensure a community-driven approach that encompasses broad input
- serve as “no wrong door” entrance into a complete cost-effective continuum of care for patients and providers.
- allow patients to be immediately assessed, medically cleared and referred to the appropriate level of care at multiple entrance points in the County.
- Must contain an information sharing system at all levels of care.
Scope of Service – Component 1

- No Wrong Door – Medical Clearance and Appropriate Referral per Assessment
  - Intake and assessment
  - Medical evaluation/medical clearance
  - Psychiatric assessments
  - Up to 23-hour observation
    - Interdisciplinary team of health care professionals
  - Appropriate facility transportation (i.e., those requiring acute medical care will be transported to local hospitals, those requiring mental health services will be transported appropriately)
  - Discharge planning
Community Triage Center – Mental Health Services and/or Detoxification Unit
- Patient services for mental health, co-occurring, substance abuse and detoxification services
- Assessments for long-term or outpatient treatment
- Initial case management services
- Referrals and service linkages
- Safe and effective treatment options for early intervention
- Discharge planning
Scope of Service – Component 3

- Transitional Living with Integrated Services
  - Social model step-down services
  - Case management services
  - Individual counseling and support groups
  - Access to medical/nursing care
  - Referrals and service linkages
  - Vocational assessment and counseling
  - Discharge planning
Scope of Service – Component 4

- Community Housing/Supportive Transitional Living
  - Ongoing case management
  - Referrals and service linkages
  - Vocational assessment and counseling
  - Soft skills and job readiness preparation
  - Job placement
  - Discharge planning
O.S.C.a.R. (ONE SYSTEM OF CARE and RESOURCES)

- Law Enforcement
- Hospital ER’s
- Paramedics & Ambulances
- Self-Referrals
- Community Referrals
- Mobile Crisis Teams

Mental Health, Co-Occurring & Detoxification Services

Community Housing – Supportive Transitional Living

Transitional Living with Integrated Services

Hospital ER’s

Home or Private Residence

Community Based Programs

State of Nevada – Rawson Neal Psychiatric Hospital (POU)

Private Psychiatric Hospitals
Patients would receive the most appropriate level of care in the least restrictive setting, based on individual service needs.

Create accessibility of centralized services, the ability of patients to move easily through the system of care, and the cost effectiveness of co-located and comprehensive of No Wrong Door – One Stop Shop mental health services.
The CTC is for individuals in crisis which integrates the referrals from the Civil Protective Custody (CPC) program, Chronic Public Inebriate (CPI) program and the modified medical detoxification program for adults.

These diversion efforts have saved the community substantial funds by treating substance abusers in a non–emergency setting instead of in hospital emergency departments throughout Southern Nevada.

Admission is 24 hours a day, 7 days a week.
