TO: Subrecipient, Contractors, and State Agencies

FROM: Kyle Devine, Bureau Chief Behavioral Health Wellness and Prevention

SUBJECT: Management Oversight Team (MOT) Staff Changes

In the Bureau of Behavioral Health Wellness and Prevention’s effort to improve the quality and services it provides to vendors and subrecipients, management has restructured our program to include a grant team that resides under the operational authority of the Management Oversight Team (MOT). The MOT includes the following administrative areas: compliance, fiscal, grant, and operational/document control.

The new grant team will function as the fiscal points of contact for all subgrants and contracts issued under the Substance Abuse Prevention and Treatment and the Community Mental Health Services Block Grants, the PATH grant, the SPF/PFS grant, the CABHI grants, and all pass-through funding from the State that support Substance Abuse Prevention and Treatment services and programs. Each analyst will be assigned specific funding sources to manage. Analysts will also be responsible for every subgrant issued (obligated) to their assigned funding sources.

**Please Note:** For programmatic questions and technical assistance related to your subgrant scope of work (SOW), you should contact your assigned Program Analyst. Meg Matta (mmatta@sapta.nv.gov) oversees the prevention program subgrants and Auralie Jensen (ajensen@health.nv.gov) oversees the treatment program subgrants.

The compliance team will function as subject matter experts and the points of contact for technical assistance for the fiscal and administrative requirements for all subgrants issued by the program. The compliance team will be responsible for:
- The annual audit reviews and the subrecipient monitoring program;
- The management memoranda system for the distribution of program policy changes and updates, and frequently asked questions; and
- The annual reviews and updates for the programs operational administrative manuals, grant guides, policies, procedures, and internal controls.
