**Sec. 12. 1. (c)** *The name of each employee who provides ~~direct~~ supportive services to patients and proof that each such employee has received the training required by section 5 of this regulation; and*

Rationale:

**Sec. 3:** The biennial renewal of licenses is in conformity with other similar provider types.

**Sec. 5:** The training for these services provides a certification that is valid for two years.

**Sec.9:** The purpose of having an attendant present during a transport is to support the patient. The attendant would need the ability to be in the same vehicle compartment as the patient in order to provide that support.

**Sec. 12:** Nonemergency secure behavioral health transport service providers employ staff that would not require the training required in section 5, such as administrative staff. This change is meant to clarify which employees are required to comply with section 5.
