Source: Nevada Division of Public and Behavioral Health NEDSS Based System (NBS), (March 2018). Discrepancies from prior publications reflect the incorporation of updated NBS data.

*Rates per 100,000 population were calculated using population projections from the Nevada State Demographer vintage 2017 data. In cases where NA is denoted no denominator is available.

**All Other Counties** includes the counties of Churchill, Douglas, Elko, Esmeralda, Eureka, Humboldt, Lander, Lincoln, Lyon, Mineral, Nye, Pershing, Storey, and White Pine.

"The table above contains counts under 12, please use caution when interpreting data and associated rates as the Relative Standard Error (RSE) is greater than 30% and are considered unreliable.
