WHAT WE CAN DO

- ✓ Talk to students about bullying and the negative consequences associated with being bullied and/or being the bully.
- ✓ Educate more students on healthy relationships.
- ✓ Involve and engage more school staff, students, parents, and the community in developing a suicide prevention program.

DATA Source: The Nevada Youth Risk Behavior Survey (YRBS) monitors priority health risk behaviors that contribute to the leading causes of morbidity and mortality among youth. The survey asks students to self-report their behaviors in six major areas of health which include: unintentional injuries and violence, sexual behaviors, tobacco use, alcohol and other drug use, unhealthy dietary behaviors, and physical inactivity.
