Legislative Counsel’s Digest:

Existing law and regulations require the Division of Public and Behavioral Health of the Department of Health and Human Services to perform a criminal background investigation of each employee of an applicant for a license to operate a child care facility and each licensed child care facility to determine whether the employee has been convicted of certain crimes. (NRS 432A.170, 432A.175; NAC 432A.200) **Section 2** of this regulation defines the term “employee” for the purposes of existing regulations governing child care facilities, including, without limitation, for the purpose of determining which employees of child care facilities are required to undergo criminal background investigations.

Existing law requires the State Board of Health to adopt regulations relating to the licensing and operation of child care facilities in this State. (NRS 432A.077, 432A.177, as amended by section 24 of Assembly Bill No. 99, chapter 9, Statutes of Nevada 2017, at page 25,

(NAC 432A.520-432A.546) **Sections 5 and 25-27** of this regulation revise those ratios for certain child care facilities. **Section 29** of this regulation repeals certain provisions relating to ratios of caregivers to children in certain child care facilities. Existing regulations require persons employed in certain child care facilities and directors of child care facilities to receive certain training in subjects relating to child care and safety. (NAC 432A.323) **Section 11** of this regulation requires that such training be provided in various other subjects relating to child health and safety and emergency preparedness. **Section 13** of this regulation requires a child care facility to write a report if a child under the care of the facility becomes seriously ill or injured within 24 hours after the illness or injury. **Section 15** of this regulation adopts the standards for meals and snacks issued by the United States Department of Agriculture that child care facilities in this State must follow.

Existing law authorizes the Division to conduct investigations and inspect any child care facility in this State. (NRS 432A.170, 432A.180) Existing law also authorizes the Division to impose administrative fines for a violation of the statutes governing licensure of child care facilities or the regulations adopted pursuant thereto. (NRS 432A.190) Existing regulations establish the amount of such administrative fines and the procedure that the Division will follow in imposing those administrative fines, including the circumstances pursuant to which the Division is authorized to issue a notice of violation to a person operating a child care facility. (NAC 432A.195) **Section 6** of this regulation authorizes the Division to charge any licensee for the reasonable cost of the investigation conducted as a result of a substantiated complaint. **Section 7** of this regulation revises the circumstances pursuant to which the Division is authorized to issue such a notice of violation.

Existing law requires the Board to adopt regulations requiring each licensee that operates a child care facility to provide appropriate space where a mother may breastfeed.
