Consideration and Adoption of Proposed Regulation, LCB File No. R102-18, Expanding Community Paramedicine Services, Emergency Medical Services. Tina Smith, EMS Program Manager

Ms. Smith provided an overview of the proposed regulation amendments. LCB File No. R102-18 proposes to amend Nevada Administrative Code 450B, Emergency Medical Services, in three ways. The first, is to expand the availability of community paramedicine services by authorizing the Division of Public and Behavioral Health to issue a community paramedicine endorsement to a licensed hospital. The second, is to expand the period in which an applicant for an EMS provider license must be found to meet certain physical and mental criteria to perform their duties. The third way is to update the criteria to determine when a patient with a severe injury is transported to a center for the treatment of trauma by adopting the current field triage guidelines published by the Centers for Disease Control and Prevention.

Ms. Hall provided public comment in support of the regulation.
