```

1997: Nevada received funding under the National Breast and Cervical Cancer Early Detection Program (NBCCEDP) and began Women's Health Connection.

2017: CDC-RFA-DP17-1701- Cancer Prevention and Control Programs for State Territorial and Tribal Organizations

“ CDC-RFA DP17-1701 funds NBCCEDP which funds Women's Health Connection.

WHC also receives funding from the State of Nevada through the passage of AB 388 in the 79th Legislative Session.

WHC Screening Dollars

NBCCEDP

\$1,875,708

AB 388

\$500,000

Eligibility Criteria

- Priority population is women.
 - Transgender women
- Income less than 250% of the federal poverty level.
- Uninsured or underinsured
- Ages 40-64 years old for breast cancer.
- Ages 21-64 years old for cervical cancer.

Importance of State Funding for Breast Screenings

NBCCEDP

- Women between the ages of 40-64 are eligible for a Clinical Breast Exam (CBE)
- Women 40-49 years old who have a normal CBE are not eligible for a screening mammogram
 - If CBE is abnormal NBCCEDP will reimburse for diagnostic procedures.

State Funding

- Women between the ages of 40-49 with a normal CBE result, are eligible to have a screening mammogram and other breast procedures if needed.

Fiscal Year 2018 Spenddown

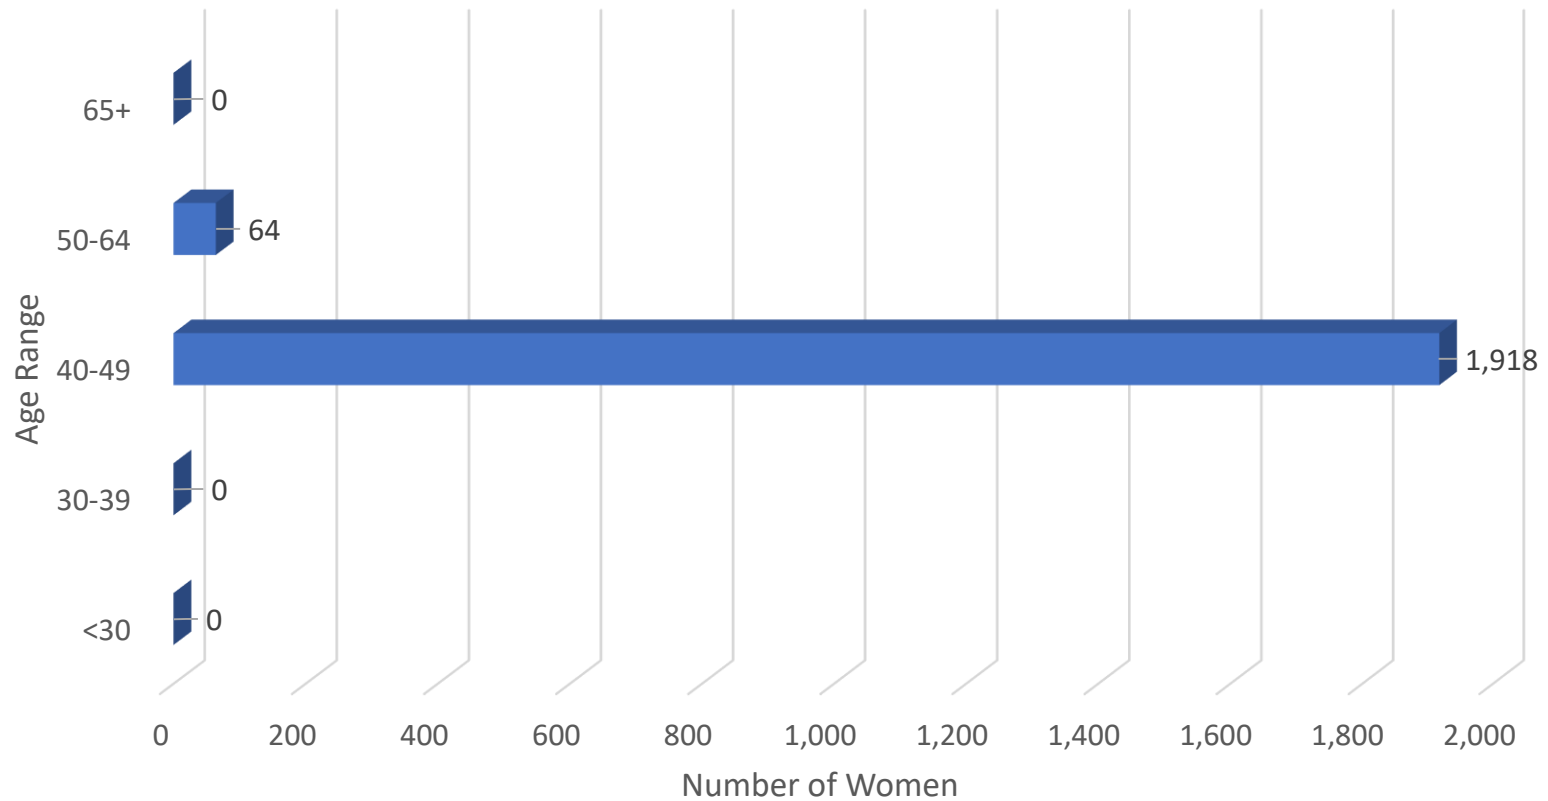

Expended: \$499,964.25 of the **\$500,000** on screening services for women in Nevada.

Screened:
1,983 women
