Dini Townsend	NV State Hospital	Adult		30Yes	30	30
				TOTAL	205	312

Community Issues

- Access But We Lack Funding
- State Bed Closures
- Limited Discharge Resources for Acute BH and Medical Hospitals

Limited Discharge Resources for Acute BH and Medical Hospitals

- Youth - Abandoned by Guardians
- Geriatric - Unable to Care for Self
- Chronically Mental Ill - Persistently a Danger to Self and Others

Private Sector

- Limits to State Funded Resources - Housing and Out of State Services
- Challenges Advocating for Public Guardianship. Process is Lengthy and Unobtainable

Recommendations

Contract BH Services

- Utilization of the Private Sector
- Fund Sustainable Programs (avoid multiple grants)
- RFP, Create Competition
- Quality Management, Require Accreditation – CARF or TJC

Collaboration

- Work Together Rather than Working in Silos
