

Legislative Priorities: Regional Overview

45 responses

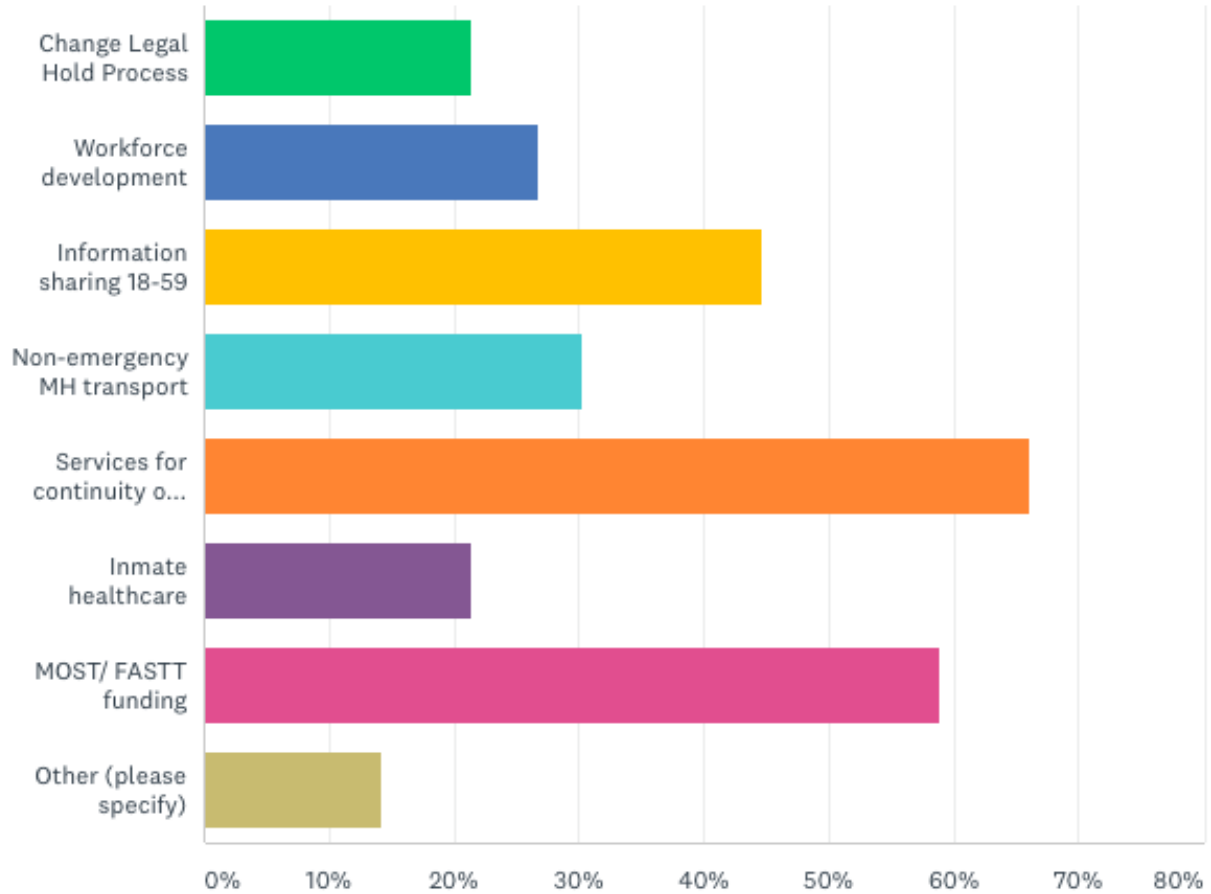

In which county or area do you primarily provide services?

ANSWER CHOICES	RESPONSES
Carson City	19.64% 11
Lyon County	19.64% 11
Churchill County	5.36% 3
Douglas County	14.29% 8
Mineral County	1.79% 1
Storey County	3.57% 2
Rural regional provider/ organization	16.07% 9
Other (please specify)	Responses 19.64% 11
TOTAL	56

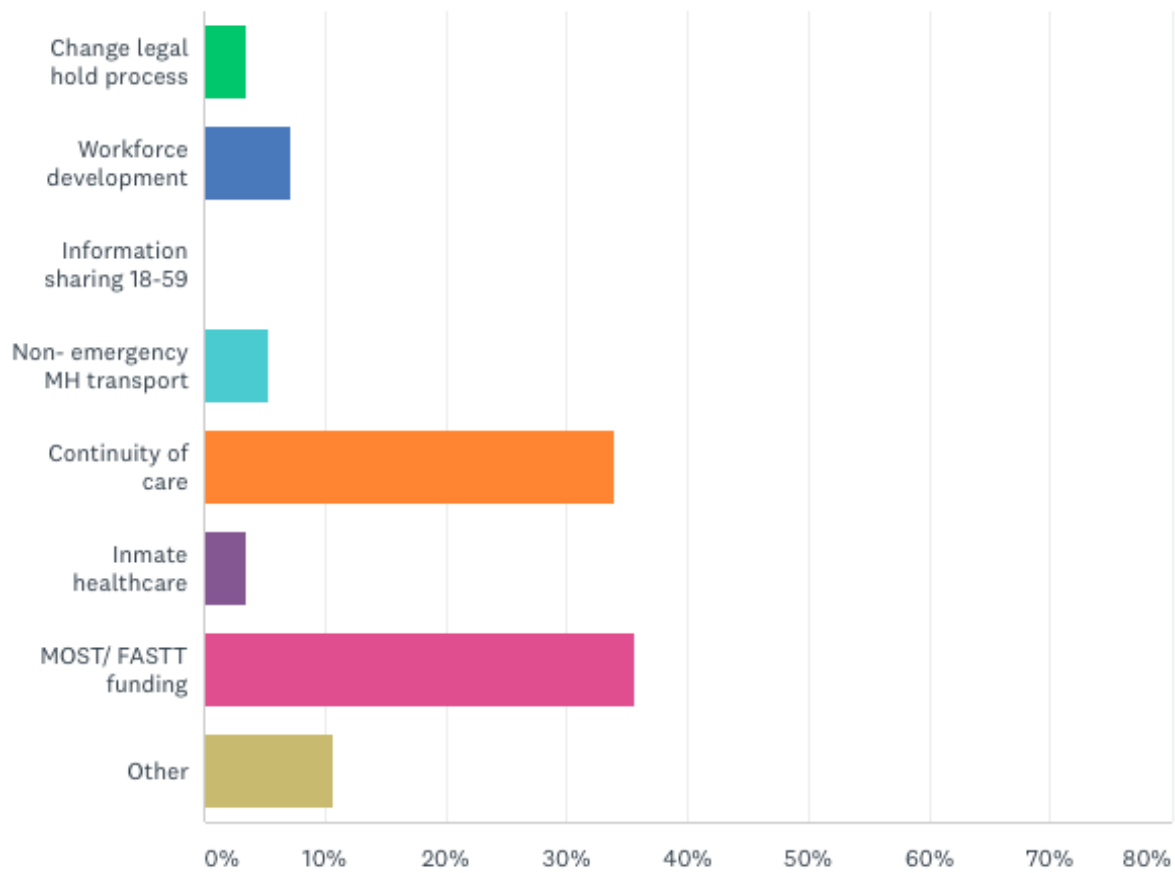

Top 3 identified legislative priorities

1. Develop services to support continuity of care (continuation of medication and service connections)
2. Identify strategies for funding to sustain/ increase jail diversion and crisis stabilization programs such as FASTT and MOST
3. Develop legal information sharing process for multi-disciplinary teams for vulnerable adults ages 18-59

ANSWER CHOICES	RESPONSES
▼ Change Legal Hold Process	21.43% 12
▼ Workforce development	26.79% 15
▼ Information sharing 18-59	44.64% 25
▼ Non-emergency MH transport	30.36% 17
▼ Services for continuity of care	66.07% 37
▼ Inmate healthcare	21.43% 12
▼ MOST/ FASTT funding	58.93% 33
▼ Other (please specify)	Responses 14.29% 8
Total Respondents: 56	

Top identified priority:

ANSWER CHOICES	RESPONSES
▼ Change legal hold process	3.57% 2
▼ Workforce development	7.14% 4
▼ Information sharing 18-59	0.00% 0
▼ Non- emergency MH transport	5.36% 3
▼ Continuity of care	33.93% 19
▼ Inmate healthcare	3.57% 2
▼ MOST/ FASTT funding	35.71% 20
▼ Other	Responses 10.71% 6
TOTAL	56

Additional responses:

#	RESPONSES
1	We need more MOST
2	Housing and home-based services for vulnerable adults and elders within the community is a huge problem. Given this is where BH challenged adults spend 90% or more of their time, this is a key issue
3	Increase funding for a mobile crisis team for children, adolescents, and adults.
4	thank you
5	need legislation to allow continuation of Medicaid during incarceration for unsentenced, pretrial inmates
6	The more flexible we can be in defining how mental health services can be provided, the better for rural areas -- hence the need to develop robust telehealth as well as MOST and FASTT options so that mental health services can be provided in vivo.
7	Non emergency mental health transport is a badly needed resource in Douglas county. Both the Sheriff's office and the fire protection districts' resources are stretched too thin to allow for regular transport of mental health patients either between facilities or from the field. An alternative method or additional funding for more ambulances or transporting deputies is needed. In addition, a full time MOST team with DPBH person, deputy and paramedic would be most beneficial.
