## **Behavioral Health Initiative Acronyms and Definitions**

### **Behavioral Health Task Force (BHTF)-**

- County based policy meetings involving stakeholders that have a vested interest in behavioral health and their communities. Task forces are a place to gather, identify problems, and set goals and priorities for the communities to tackle problems both large and small. Task forces are effective in bringing all stakeholders together as they enable different professions to understand behavioral health impacts and challenges from different perspectives.

### **Certified community behavioral health clinics (CCBHC)**

- Outpatient behavioral health centers that provide integrated treatment and services individuals in need of care. The CCBHC will serve the 'whole person' by offering person-centered and family-centered care. Populations that CCBHCs provide services to include:
  - Adults with serious mental illness
  - Children with serious emotional disturbance (SED)
  - Individuals with severe substance use disorders
  - Individuals with mild or moderate mental illness and substance abuse disorders
- Services provided:
  - Community-based mental health and substance use treatment services
  - Combined behavioral health and physical health care with no wrong door entry to services
  - Evidenced based practices
  - Improved access to high-quality care
  - Care coordination and case management to address all needs of the individual

### **County Social Services vs. Indigent Services**

- Services offered are unique to each county. Counties with robust social service agencies have a wide variety of services for vulnerable populations while other social service agencies are limited to offering emergency rent assistance, housing vouchers and transportation assistance.

### **Crisis Intervention Team Training (CIT)**

- A 40-hour behavioral health training model, focused on first responders, that brings together law enforcement, mental health providers, hospital staff, and individuals with mental illness, and their families to improve responses to people in crisis. CIT trainings enhance communication between providers, identify community mental health

resources, and develop participant skills in responding to those in behavioral health crisis. CIT trainings are unique to each community region so that resources and information are tailored to the local needs of the participants in the training.

#### **Forensic Assessment Service Triage Team (FASST)**

- The FASST team is comprised of social services, mental health, and substance use treatment agencies who conduct community in-reach into county jails to provide inmates with screening, assessment, treatment, and other services during incarceration and upon reentry into the community to reduce risk of rearrest.

#### **Juvenile Justice Assessment Services Triage Team (JASTT)**

- Early mental health diversion program involving juvenile probation, mental health providers, juveniles and their families.

#### **Multidisciplinary Team (MDT)**

- A regularly scheduled community provider meeting focused on development of service and crisis stabilization plans for individuals who are in chronic crisis or are overutilizing emergency services. Teams may consist of any combination of law enforcement, emergency medical services, housing, hospitals, social services, and behavioral health treatment providers. For certain populations Elder Protective Services or Department of Child and Family Services may be involved. For individuals 18-59 years of age, a HIPPA compliant Release of Information form must be signed by the person being discussed, who may choose not to allow specific members or disciplines on the team to participate.

#### **Mobile Outreach Safety Team (MOST)**

- A team composed of a mental health clinician and a law enforcement deputy, and may also include an emergency services paramedic and/ or social services case manager. The team responds to law enforcement calls and other community referrals that involve behavioral health crisis. Depending on the county, MOST teams may respond to psychiatric emergencies, provide community outreach, and provide maintenance check-ups on previous contacts. MOST's purpose is to reduce the risk of arrest and hospitalization for individuals experiencing behavioral health issues, thereby increasing the safety of the general public.

**Division of Public and Behavioral Health Rural Clinics**

- Public outpatient behavioral health and community nursing services provided by the Nevada Division of Public and Behavioral Health. Offices are located in most counties (with the exception of Eureka and Storey Counties).

**Mobile Crises Response Team (MCRT) (youth)**

- The MCRT responds to youth and families in crises, by phone or in person, working to connect them to treatment, and prevent hospitalizations. Mental health clinicians are available to assess, intervene, and stabilize crises, and connect the family to continuing care. MCRT provides a statewide hotline to receive referrals and provide screening. If additional intervention is necessary, a response team provide time limited outreach to the youth and family to resolve the crisis. MCRT offers short-term assistance and case management services.
- **Crisis Hotline:** 24/7
- **Outreach Services available:** Monday- Friday 9 am- 6pm, 7 days/ weeks excluding holidays

Website: <https://www.westhillshospital.net/>

- Provides inpatient psychiatric services and supports for children, adolescents, and adults, and medically supported substance use detoxification services.

### Behavioral Health Advocacy and Support Services

**National Alliance on Mental Illness (NAMI) Western Nevada**..... 775-440-1626

Website: <https://namiwesternnevada.org/>

- Advocates for a life of quality and dignity by providing free education, resources and confidential emotional support to families and those affected by mental illness. Works to end discrimination and stigma for all those persons affected by these illnesses through broader education and collaboration with the entire community.

- **Programs offered:**

- NAMI Family-to-Family**

- NAMI Family-to-Family is a free 12 session course for family members and partners of individuals with serious mental illnesses taught by trained NAMI family members and caregivers of individuals living with mental illness.

- NAMI Family Support Group**

- NAMI Family Support Group is a free and confidential bi-monthly meeting of family members. This group focuses on developing community, shared wisdom, and best support practices for loved ones living with mental illness. These meetings are facilitated by trained NAMI volunteers who are family members.

- NAMI Basics**

- NAMI Basics is a free 6 session education program developed specifically for parent and other caregivers of children and adolescents who have either been diagnosed with a serious mental illness or are experiencing symptoms.

- NAMI In Our Own Voice**

- NAMI In Our Own Voice is a free, unique public education presentation that offers insight into the hope and recovery possible for people living with mental illness.

- NAMI Peer-to-Peer**

- NAMI Peer-to-Peer is a free, 10 session, peer-led, recovery education course open to any person with a serious mental illness. Peer to Peer emphasizes recovery from mental illness as a feasible, supportable goal and challenges the stigma often wrongly associated with mental illness.

- NAMI Homefront**

- NAMI Homefront is a free, 6 session education program for families, caregivers and friends of military service members and veterans with mental health conditions.

Opioid Recovery Support Services

**Mobile Opioid Recovery Engagement Team (M.O.R.E)- Life Change Center**

Hotline..... 1-833-GET- TLCC

Website: <http://tlccreno.org/>

- Hotline staffed by a peer recovery specialist for individuals or loved ones who struggle with the use of heroin or pain pills. The phone line is monitored 5 am to 10 pm 7 days a week. Overseen by The Life Change Center.

Specialty Courts

**Western Regional Specialty Court (WRSC)**
