

## Feed

**Goal #1:** Maximize participation in each federal nutrition program available to the state.

Strategies/Activities	Outputs	Leads	Progress	Performance Measures*	Notes															
1.1 Feed more children through increased participation in in-school meal programs and establish accountability measures.				<p><b># of programs: 2</b></p> <ul style="list-style-type: none"> <li>• School Breakfast Program (SBP)</li> <li>• National School Lunch Program (NSLP)</li> </ul> <p><b># of accountability policies: 1</b></p> <p><b>SBP participation:</b>  <b>2013 - 21.8% 2016 - 28.2%</b>  <b>SBP national average:</b>  <b>2013 - 27.4% 2016 - 30.2%</b>  <b>NSLP participation:</b>  <b>2013 - 47.7% 2016 - 50.2%</b>  <b>NSLP national average:</b>  <b>2013 - 59.4% 2016 - 59.1%</b></p>	Mandate of SB 503 (2015) Breakfast After the Bell, led Nevada to have the largest percent increase from 2014-2015 to 2015-2016. School breakfast participation among low-income children increased by 26.5%.															
1.2 Expand partnerships between regional food banks and commodities programs to effectively utilize and deliver all United States Department of Agriculture (USDA) commodities programs along with fresh produce.				<p>Food Bank of Northern Nevada (FBNN) Three Square Food Bank (TS)</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th colspan="3" style="text-align: center;">Lbs. Fresh Produce Distributed Through Food Banks (FB)**</th> </tr> <tr> <th style="text-align: center;">FB</th> <th style="text-align: center;">2013</th> <th style="text-align: center;">2016</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">FBNN</td> <td style="text-align: center;">6,032,553</td> <td style="text-align: center;">6,064,768</td> </tr> <tr> <td style="text-align: center;">TS</td> <td style="text-align: center;">30,000,000</td> <td style="text-align: center;">40,000,000</td> </tr> <tr> <td style="text-align: center;"><b>TOTAL</b></td> <td style="text-align: center;"><b>36,032,553</b></td> <td style="text-align: center;"><b>46,064,768</b></td> </tr> </tbody> </table> <p>**Does not reflect pounds distributed through commodity programs. Data requested by subcommittee.</p>	Lbs. Fresh Produce Distributed Through Food Banks (FB)**			FB	2013	2016	FBNN	6,032,553	6,064,768	TS	30,000,000	40,000,000	<b>TOTAL</b>	<b>36,032,553</b>	<b>46,064,768</b>	Effective October 1st The Emergency Food Assistance Program (TEFAP) will move to a food pantry model in Nevada. One (1) Regional Distributing Agency will be selected to serve Northern Nevada and one (1) to serve Southern Nevada. Agreements will be in place with Local Distributing Agencies to distribute TEFAP food to those in need. Agencies will be able to track the pounds of produce distributed.

FBNN	6,032,553	6,064,768																		
TS	30,000,000	40,000,000																		
<b>TOTAL</b>	<b>36,032,553</b>	<b>46,064,768</b>																		

					<p>There are three (3) USDA-funded FDPIR programs operating in Nevada, collectively serving 27 locations. They currently do not track pounds of fresh produce issued.</p> <p>CSFP's food package does not offer fresh produce. USDA is currently reviewing the food package for this program, but it may not include adding fresh produce to the package.</p>
1.3 Create a strategic partnership between Women, Infants and Children (WIC) and Supplemental Nutrition Assistance Program (SNAP) to maximize caseloads.				No indicators identified.	SNAP was granted funding in the 2017 Legislative Session for an updated database that will allow data collection across social service programs. Data collected will be used to determine the baseline of WIC-eligible SNAP participants who are or are not participating in WIC. Timeline to be determined.
1.4 Create partnerships and sponsorships to feed more children through out-of-school meal programs and daycare centers using Child and Adult Care Food Program (CACFP) and Summer Food Service Program (SFSP).				<p><b>SFSP meals:</b>  <b>2013 - 489,592 2016 - 644,522</b></p> <p><b>SFSP sponsors:</b>  <b>2013 - 35 2016 - 30</b></p> <p><b>SFSP sites:</b>  <b>2013 - 175 2016 - 314</b></p> <p><b>CACFP meals:</b>  <b>2013 - 4,723,768 2016 - 5,322,117</b></p> <p><b>CACFP sponsors:</b>  <b>2013 - 55 2016 - 48</b></p>	No updates

				<b>CACFP sites:</b> <b>2013 - 585 2016 – 572</b>	
1.5 Replicate effective models to increase rural capacity for children's out of school meal programs.				<b>SFSP sponsors w/rural sites:</b> <b>2013 - 19 2016 - 22</b> <b>SFSP rural sites:</b> <b>2013 - 95 2016 - 213</b>  <b>CACFP sponsors w/rural sites:</b> <b>2013 - 11 2016 - 11</b> <b>CACFP rural sites:</b> <b>2013 - 35 2016 – 31</b>	No updates
1.6 Assist school districts and charter schools with implementing the State's wellness policy and support the Office of Child Nutrition Programs' enforcement of the policy.				<b># of school wellness policies: 17</b>  Indicators and data from 2017 will be included once the Nevada Department of Agriculture (NDA) final report is available.	School districts and charter schools on the NSLP are required to have a school wellness policy. Implementation is tracked through an NDA online school wellness implementation reporting tool.  The NDA and Chronic Disease Prevention and Health Promotion School Health Program collaborate to support the implementation of state and local school wellness policies.  Barrier: The State School Wellness Policy is not law, so it is difficult to ensure implementation.

Goal #2: Establish and integrate an actual or virtual "one-stop-shop" system to increase access to food and other services for food insecure Nevadans.																				
Strategies/Activities	Outputs	Leads	Progress	Performance Measures*	Notes															
2.1 Increase the number of services, providers, and places within a community and neighborhood to increase access points to healthy food by food insecure people who may be ineligible for federal nutrition programs.				<table border="1"> <thead> <tr> <th colspan="3">Food Bank Partner Agencies</th> </tr> <tr> <th>FB</th> <th>2013</th> <th>2016</th> </tr> </thead> <tbody> <tr> <td>FBNN</td> <td>131</td> <td>144</td> </tr> <tr> <td>TS</td> <td>270</td> <td>370</td> </tr> <tr> <td><b>TOTAL</b></td> <td><b>401</b></td> <td><b>514</b></td> </tr> </tbody> </table> <p># of NV farmers' markets: 40  # accepting SNAP: 17  <b>Total farmers' market SNAP redemption: \$4,104.61</b></p> <p><b>Senior Farmers' Market Nutrition Program: 2016 data</b></p> <ul style="list-style-type: none"> <li>• \$156,090 in coupons issued</li> <li>• 5,203 seniors issued books</li> <li>• \$106,228 redeemed</li> <li>• 692 additional seniors served through bulk purchases</li> </ul>	Food Bank Partner Agencies			FB	2013	2016	FBNN	131	144	TS	270	370	<b>TOTAL</b>	<b>401</b>	<b>514</b>	Food bank partner agency numbers vary from year to year due to changes in staff/volunteers, financial resources, space etc.
Food Bank Partner Agencies																				
FB	2013	2016																		
FBNN	131	144																		
TS	270	370																		
<b>TOTAL</b>	<b>401</b>	<b>514</b>																		
2.2 Assess and implement a single, statewide database system that integrates with other information and service systems (e.g., 2-1-1, Federal Nutrition Programs).				No indicators identified.	2-1-1 has developed a 5-year strategic and sustainability plan (2016-2020) which includes creating more partnerships and identifying additional databases and programs to increase collaboration and eliminate duplication of efforts.															
2.3 Collaborate with the Consumer Assistance Committee of the Silver State Health Insurance Exchange on a single point entry/application				New indicator(s) pending activity revision.	The Consumer Assistance Committee no longer exists. Food security is currently not within the scope of the Silver State Health Insurance															

process for multiple assistance programs across systems.					Exchange; current applications are only for enrollment for health plans (QHP), Medicaid, or CHIP (NV Check-Up).  <b>This activity must be updated. The subcommittee suggested reaching out to Community Health Alliance's Chuck Duarte.</b>
2.4 Strengthen partnerships and increase efficiency to implement a "one-stop-shop" for all assistance programs.				<b><u>One-stop-shop grant results***</u></b> # of meals provided: 2017 - 6,407,165 # unduplicated served: 2017 - 54,601 # successful program linkages: 2017 - 99,323  ***One-stop-shop grant from the Office of Community Partnerships and Grants	No updates
2.5 Expand partnerships linked to a "one-stop-shop" to address risk factors that increase food insecurity.				See 2.4 data.	No updates

GROW					
Goal #1: Increase the number of servings of nutritious foods consumed by Nevadans - with emphasis on foods that are produced in Nevada.					
Strategies/Activities	Outputs	Leads	Progress	Performance Measures	Notes
1.1 Encourage local producers to establish aggregation centers to increase retail and wholesale sales.				# of food hubs: 4  # of food co-ops: 3  # of aggregation centers: No data available.	No updates

<p>1.2 Support and expand model programs and partnerships (e.g., school gardens, community gardens, and small food plots) to supplement a household's supply of fresh produce or encourage entrepreneurial efforts, with a focus on individuals utilizing the food security network.</p>				<p><b># of school gardens:</b></p> <ul style="list-style-type: none"> <li>Las Vegas: 103</li> <li>Lyon: 10</li> </ul> <p><b># of certified gardens:</b> No data available.</p> <p><b># of community gardens:</b> No data available.</p> <p><b># of pantry gardens:</b></p> <ul style="list-style-type: none"> <li>Lyon: 1</li> </ul>	<p>Subcommittee members suggested compiling model program curricula for school gardens. SB 167, which makes appropriations for the creation and maintenance of school gardens, passed in the 2017 legislative session. The appropriation will be used to issue \$410K in grants to Title I schools for FY17-18. Schools can apply for up to \$10K for new or existing school gardens. Additional funds will be available in FY18-19.</p> <p><b>The garden data listed is not comprehensive. Additional data is needed.</b></p>
<p>1.3 Develop a food system asset map (inventory) to catalog existing food resources and potential resources in the state that could be leveraged further. (Refer also Goal 1.b Reach).</p>				<p>No indicators identified.</p>	<p>No data available. Multiple agencies are working on variations of local/statewide asset maps.</p>
<p>1.4 Analyze the asset map, prioritize, and recommend investment and collaboration opportunities to increase food security and its economic impact.</p>				<p>No indicators identified.</p>	<p>Activity pending completion of 1.3.</p>
<p>1.5 Use identified aggregation, processing, and distribution</p>				<p>No indicators identified.</p>	<p>Identify barriers of incorporating local foods</p>

capacity to pilot the utilization of local foods into the food security networks and Nevada institutions (e.g., Farm to School, Fresh Fruit and Vegetable Program).					<p>into these networks.</p> <p>Need improvement of local food certification in Nevada. Nevada can certify fruits and vegetables, grains, crops, livestock, process and handling, and wild crops.</p> <p>Basin Range Organics now has a livestock program. They handle and process fruits and vegetables in addition to livestock and wild crafting. They currently have three (3) full-time inspectors. Basin Range Organics cannot grow their program without a local USDA-certified organic meat processor and kill facility.</p>
1.6 Work with producers and other stakeholders to identify and address barriers preventing the production, sale, and use or expansion of local foods.				No indicators identified.	Waiting on statement from NDA.
1.7 Develop an education and marketing plan to encourage consumption of nutritious, local foods, focused on individuals that utilize the food security network.				No indicators identified.	No updates. The subcommittee recommended revising activity language.

\*For this draft work plan, the performance measures serve as pre-evaluation/baseline data to help inform strategy and output redevelopment.
