Farm Bill Overview

GOVERNOR’S COUNCIL ON FOOD SECURITY – MARCH 2018
What is the Farm Bill?

Federal legislation that governs agriculture and nutrition policy in America

Sets the policies that bring food from our farms and ranches to our stores and homes

Farm Bill must be “reauthorized” (renewed by Congress) about every five years, including by September 30, 2018
Farm Bill Reauthorization Process

1. **Hearings and listening sessions** in Washington, D.C., and across the country for Members of Congress to hear from the public.

2. The **House Agriculture Committee** drafts and passes a bill. The bill is considered by the full House, which debates the bill, considers amendments and votes.

3. The **Senate Agriculture Committee** also drafts and passes a bill, which is considered and voted on by the full Senate.

4. A **conference committee** allows the House and Senate to come together on a compromise.

5. Final bill **passed** by House and Senate.

6. Signed into law (or vetoed) by the president.
Farm Bill of many names

• Federal Farm Loan Act (1916), Agricultural Adjustment Act (1933), Agricultural Adjustment Act Amendment of 1935, Soil Conservation and Domestic Allotment Act of 1936, Agricultural Adjustment Act of 1938
• Agricultural Act of 1948, ’49, ’54, ’56, ’61
• Food and Agriculture Act of 1965
• Agricultural Act of 1970
Nutrition is a major component

- Nutrition - $756.43 billion
- Crop Insurance - $89.83 billion
- Conservation - $57.60 billion
- Commodity Programs - $44.46 billion
- Trade - $3.70 billion
- Misc. - $2.30 billion
- Credit - $2.24 billion
- Horticulture - $1.76 billion
- Research and Extension - $1.26 billion
- Energy - $1.12 billion
- Rural Development - $0.24 billion
- Forestry - $0.01 billion

2014 US FARM BILL SPENDING

$956.47 billion over 10 years
Title I: Commodities

- Incentivize production of staples – wheat, corn, cotton, sugar, etc.
- Prior to 1930’s – land grants and credit to settlers; land grant research colleges (UNR)
- Now subsidies; amount reduced; last 10 years is 5% of Farm Bill spending.
Title II: Conservation

- Conservation – early purpose of original farm bill; incentive for farmers to cut back on acreage
- From Dust Bowl in 30’s came (today’s) Natural Resources Conservation Service working with local Conservation Districts to help farmers with conservation techniques.
- 6% of 2014 Farm Bill, first time in several Farm Bills spending decreased on Conservation.
- Many planning requirements and standards to be met to receive NRCS’ financial support but result is sustainable land and growing practices.
Title III: Trade

- Trade is essential to agriculture, and the export of goods like tobacco and cotton were essential to our nation’s beginning.

- Farm Bill and USDA Foreign Agricultural Service actively promote and negotiate foreign trade agreements for American producers.

- Farm income has been low for last few years; farmers are concerned about being the target in “wars” over tariffs and trade.

- Farmers have interests in NAFTA and TPP
Title IV: Nutrition

- 78% of all mandatory spending in Farm Bill as compared to 53% of 2002 FB and 66% of 2008 FB.
- Individuals qualify for vouchers or cash assistance for qualified food purchases based on income and asset levels.
- FY 2014 – 46.5 million Americans receiving SNAP, averaging $125 per person per month
Title V: Credit

- Farmers - land rich, cash poor, require credit
- Cyclical, seasonal nature of farming makes credit too risky for private commercial lenders
- **Farm Credit Service** was created in 1916. It was later known as the Farmers Home Administration (FmHA) and was consolidated into one of the functions of the **Farm Service Agency (FSA)**
- FSA offers direct and guaranteed loans, loans to beginning farmers, women and minority farmers
Title VI: Rural Development

- Creates loan, loan guarantee, and grant authority for rural businesses, electric and telecommunications services, rural water, and sewer infrastructure, rural hospitals and healthcare, among other programs.

- All funded by annual appropriations. Mandatory FB funding is $2/10^{th}$ of 1% of total FB funding in 2014.

- Rural lacks economy of scale, justifying subsidy in form of low cost loans and some grants.

- Third leg of Rural Development stool is Affordable Housing, authorized and appropriated through Banking Committees.
Title VIII: Forestry

The 2002 Farm Bill created the first forestry title; USDA has jurisdiction over the U.S. Forest Service. Forestry programs are subject to appropriations.

Title IX: Energy

Began in 2002 FB; energy title has played a significant role toward the development of advanced biofuels, as well as promoting energy and carbon capture. Today all programs in this title are subject to appropriations.

- Biofuel loan guarantee program, shares the risk in new forms of energy development
- REAP grant of 25% of project cost to incent introduction of renewable energy in rural areas.
Title X: Horticulture

- Began in 2008 FB; supports specialty crop and organic farming operations with trade promotion and risk management assistance.
- sales of specialty crops account for nearly one-third of U.S. crop cash receipts and one-fifth of U.S. agricultural exports.

Title XI: Crop Insurance

The Federal Crop Insurance Act permanently authorized Federal crop insurance. But due to its increasing prominence as the primary risk management tool for farmers, crop insurance policy has been amended in both the 2008 and 2014 farm bills. More than 100 crops are insurable under the 2014 Farm Bill with the adoption of two new programs

The Farm Bill
and the Nutrition Title
It’s not only SNAP!
Other Farm Bill strands in the Food Security Safety Net

Temporary Emergency Food Assistance Program (TEFAP) – purchases USDA foods and distributes through food banks, pantries. 2015 $298 M in purchases; $73 M in administrative funds (food storage and distribution)

Food Distribution Program on Indian Reservations (FDPIR) – 2015 provided food for 88,000 individuals living on reservations

Commodity Supplemental Food Program (CSFP) – 2015 helped nourish 570,000 low income seniors with USDA foods
Why SNAP is Important
from Food Resource Action Center

$126/mo; $4.18/day, $1.39/meal

The Supplemental Nutrition Assistance Program (SNAP) is the nation’s first line of defense against hunger. SNAP currently helps put food on the table for more than 41 million low-income participants. It responds to changes in need, whether due to economic downturns or natural disasters.

**SNAP Strengths**

**SNAP DELIVERS ASSISTANCE**
quickly and effectively to people recovering from natural disasters or economic crises.

**SNAP REACHES KEY VULNERABLE POPULATIONS**
— the large majority are children, seniors, and people with disabilities.

**SNAP REDUCES HUNGER**
and food insecurity by providing low-income people necessary food money.

**SNAP IMPROVES DIETARY INTAKE**
and health, especially among children and with lasting effects.

**SNAP IS EFFICIENT,**
using electronic benefits technology and regular channels of commerce.

**SNAP SUPPORTS WORK,**
helping families struggling with low wages.

**SNAP BOLSTERS LOCAL ECONOMIES**
by increasing money spent for food at local retailers.

**SNAP LIFTS MILLIONS OF PEOPLE**
out of poverty.
SNAP in the current era

1) President Trump’s budget proposal cuts SNAP by $140 billion dollars over ten years
2) Congressional Budget proposals targets SNAP, and other crucial safety net programs by $655 billion dollars over ten years
3) Recent tax plan anticipates >$1 trillion dollar budget deficit and predicted proposed response is drastic cuts to the safety net including SNAP and Medicaid
SNAP in the current era

America’s Harvest Box

Reduces choice – reduces Purchasing in local stores

Up to states to determine How to pack and distribute Boxes; cost? Fraud?

Perdue pushes back on Roberts comment on food boxes

ANAHEIM, Calif. — Agriculture Secretary Sonny Perdue pushed back today against a comment by Senate Agriculture Committee Chairman Pat Roberts, R-Kan., that the committee does not plan to make major changes to the Supplemental Nutrition Assistance Program (SNAP) in the next farm bill.

USDA has proposed changing the SNAP program so that participants would get half their benefits in food boxes and 50 percent of their benefits through the current system of electronic benefit transfer cards that are reloaded monthly.
The Current Farm Bill Situation

Drafts of bills have not been released in either House of Congress

Senate Ag Committee Chairman Pat Roberts of Kansas stated he wants to mark up the Farm Bill in April and his staff and Sen. Stabenow’s staff (ranking minority member) are working on language.

Nothing on Senate Ag Website on current Farm Bill.

House Ag Committee Chair K. Michael Conaway of Texas.
