

Nevada Assembly District 8

This Assembly District Health Profile provides data on key health topics for the approximately 71,593 adults and children living in Nevada Assembly District 8 in 2015. Estimates are based on the data available from Office of Public Health Informatics and Epidemiology (OPHIE).

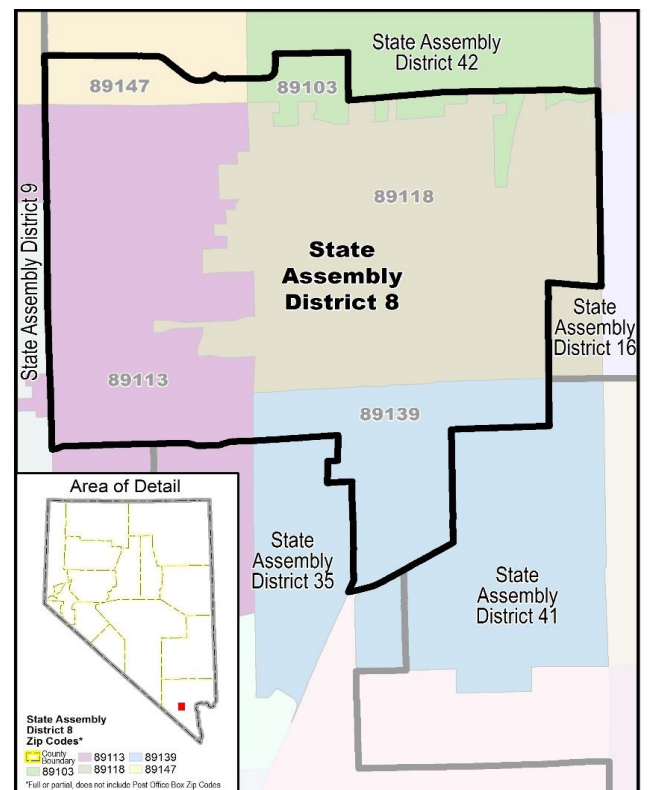

Death ¹	Assembly District	Nevada	
Heart Disease	135.1 (119.2 - 150.9)	192.8 (189.8 - 195.7)	↓
Cancer	122.0 (106.9 - 137.0)	164.3 (161.6 - 167.1)	↓
Chronic Lower Respiratory Diseases	35.3 (27.2 - 43.4)	52.1 (50.6 - 53.6)	↓
Accidents	28.6 (21.3 - 35.8)	39.3 (38.0 - 40.7)	↓
Stroke	22.8 (16.2 - 29.3)	32.2 (31.0 - 33.5)	↓
Alzheimers Disease	11.1 (6.6 - 15.7)	21.5 (20.5 - 22.5)	↓
Influenza and Pneumonia	16.0 (10.5 - 21.4)	20.5 (19.5 - 21.5)	
Suicide	19.4 (13.4 - 25.4)	18.7 (17.8 - 19.7)	
Diabetes Mellitus	6.3 (2.9 - 9.7)	13.3 (12.5 - 14.1)	↓
All Other Causes	129.2 (113.7 - 144.8)	195.7 (192.7 - 198.7)	↓

Cancer Incidence ⁹	Assembly District	Nevada	
All Cancers	362.6 (316.7 - 408.4)	436.5 (428.7 - 444.2)	↓

General Health ¹⁰	Assembly District	Nevada	
Ever had a heart attack?	*	4.6% (4.2%-5.0%)	
Ever had a stroke?	*	2.9% (2.6%-3.2%)	
Currently have asthma?	*	7.8% (7.3%-8.4%)	
Ever had COPD?	5.6% (2.6%-8.6%)	7.0% (6.4%-7.5%)	
Ever had a depressive disorder?	19.3% (11.0%-27.6%)	16.4% (15.6%-17.2%)	
Ever had diabetes?	*	9.6% (9.0%-10.2%)	
Current smoker?	19.9% (11.0%-28.7%)	18.9% (18.0%-19.8%)	
Overweight or Obese?	62.2% (51.8%-72.7%)	63.2% (62.1%-64.3%)	
Mammogram in the last 2 years?	*	71.9% (69.3%-74.6%)	
Pap test in the last 3 years?	*	75.0% (72.6%-77.5%)	
PSA test in the last 2 years?	*	44.8% (41.9%-47.8%)	

Demographics ²	Assembly District	Nevada	
White - Non Hispanic	42.9%	52.7%	
Black - Non Hispanic	9.9%	8.0%	
Hispanic or Latino	18.9%	27.2%	
Asian - Non Hispanic	23.4%	8.0%	
All Other	4.9%	4.1%	
Income Below PL ³	11.0%	15.6%	
No Health Insurance Coverage ⁴	20.8%	15.6%	

Birth Related ⁵	Assembly District	Nevada	
Infant Mortality ⁶	0.5% (0.3% - 0.7%)	0.5% (0.5% - 0.6%)	
Low-birthweight births ⁷	6.9% (6.1% - 7.6%)	8.2% (8.1% - 8.3%)	↓
Less than adequate prenatal care ⁸	28.8% (27.4% - 30.2%)	26.9% (26.7% - 27.2%)	↑

Notes

District 2015 populations are based on the number individuals within each district in 2014 (obtained from U.S. Census Bureau, 2010-2014 5-Year American Community Survey, Table DP05 – ACS Demographic and Housing Estimates) as a proportion of the estimated 2015 Nevada population from the Nevada State Demographer.

¹Data reflects the causes of deaths that occurred between 2013 and 2015. Only Nevada residents are included in the data.

²Racial/Ethnic populations for each District were obtained from U.S. Census Bureau, 2010-2014 5-Year American Community Survey, Table DP05 – ACS Demographic and Housing Estimates.

³Income below poverty level (PL) was obtained from U.S. Census Bureau, 2010-2014 5-Year American Community Survey, Table DP03 – Selected Economic Characteristics

⁴Uninsured reflects individuals without insurance covered. Data was obtained from U.S. Census Bureau, 2010-2014 5-Year American Community Survey, Table S2701 – Health Insurance Coverage Status.

⁵Nevada residents only are included in the data.

⁶Infant mortality measures the percentage of babies who die during the first year of life. Data is reported on Assembly District of residence, not place of death.

⁷Low-Birthweight babies are those weighing less than 2,500 grams (about 5.5 pounds) at birth. Data are reported by mother's residence, rather than the infant's place of birth.

⁸Adequate prenatal care is determined by calculating an expected visit ratio where the number of prenatal visits is compared to the expected number of visits between when care began and the date of delivery. The expected number of visits is adjusted for the gestational age of when care began and the gestational age at delivery. Care is deemed adequate if the ratio of observed to expected visits is 80% or greater.

⁹Cancer incidence is reflective of the number of reportable cancers diagnosed in 2013 that were reported to the Nevada Central Cancer Registry.

¹⁰General Health indicators are collected from the Behavioral Risk Factor Surveillance System (BRFSS), which is a state-based system of health surveys that collects information on health risk behaviors, preventive health practices, and healthcare access primarily related to chronic disease and injury. Data is provided at the zip code level, and since a zip code may be a part of multiple Districts, populations outside of a District may be included within each indicator. All indicators reflect responses from 2011-2015, except mammogram, pap test, and PSA test which reflect responses from 2012 and 2014 only. The following questions correspond with the indicators:

- Ever had a heart attack?
 - o (Ever told) you that you had a heart attack also called a myocardial infarction?
- Ever had a stroke?
 - o (Ever told) you had a stroke?
- Currently have asthma?
 - o (Ever told) you had asthma?
 - o Do you still have asthma?
- Ever had COPD?
 - o (Ever told) you have Chronic Obstructive Pulmonary Disease or COPD, emphysema or chronic bronchitis?
- Ever had a depressive disorder?
 - o (Ever told) you have a depressive disorder, including depression, major depression, dysthymia, or minor depression?
- Ever had diabetes?
 - o (Ever told) you have diabetes?
- Current smoker?
 - o Have you smoked at least 100 cigarettes in your entire life?
 - o Do you now smoke cigarettes every day, some days, or not at all?
- Overweight or Obese?
 - o About how much do you weigh without shoes?
 - o About how tall are you without shoes?
- Mammogram in the last 2 years? (Reflective of women 50 years and over)
 - o A mammogram is an x-ray of each breast to look for breast cancer. Have you ever had a mammogram?
 - o How long has it been since you had your last mammogram?
- Pap test in the last 3 years? (Reflective of women 21 years and over)
 - o A Pap test is a test for cancer of the cervix. Have you ever had a Pap test?
 - o How long has it been since you had your last Pap test?
- PSA test in the last 2 years? (Reflective of men 40 years and over)
 - o Have you EVER HAD a PSA test?
 - o How long has it been since you had your last PSA test?

*Indicators with too few responses were suppressed due to reliability.

The ZIP Code and legislative district data are not one-to-one comparable due to issues of geographic and data distinctiveness. ZIP codes are designated by the U.S. Postal Service for mail delivery and may not be fixed areas. The data and ZIP code boundaries presented in this report should be used for general reference only.

↑↓Arrows reflect if Assembly District rates or proportions are statistically significantly higher or lower than Nevada rates or proportions for the same indicator.
