- NRS 640E.070 and NRS 640E.090 were reviewed.
- The difference between an athletic trainer and fitness professional was discussed. Athletic trainers are covered in Section 1 (a) of NRS 640E.090. Fitness professionals are not licensed and do not fall under Section 1 (a) of NRS 640E.090. Fitness professionals are limited to providing “nutritional information” as defined in NRS 640E.090. NRS 640E.090 (e) A person who provides services relating to weight loss or weight control through a program reviewed by and in consultation with a licensed dietitian or physician or a dietitian licensed or registered in another state which has equivalent licensure requirements as State of Nevada, as long as the person does not change the services or program without the approval of the person with whom he or she is consulting.

- Scope of practice and job descriptions should be reviewed by employers to ensure:
  1. Non-licensed persons are only providing services allowed in accordance with NRS 640E.090.
  2. Individuals practicing dietetics as defined in NRS 640E.070 are licensed dietitians.
  3. It was suggested that NRS 640E.070 which defines “Practice of dietetics” and NRS 640E.090, which defines “Applicability of Chapter” be sent out through the dietitian ListServ so that individuals may better understand activities that require one to be licensed and activities that can be done without a license.
