

January 27, 2016

Mr. Steve Tafoya, Director
State of Nevada EMS
4150 Technology Way, Suite 101
Carson City, Nv 89706

Dear Mr. Tafoya:

I understand that you are currently seeking to fill a position on the EMS Advisory Committee with an individual involved in providing air ambulance services in Nevada. I am writing to express my interest in serving the citizens of Nevada in this capacity. '

Please let me know what you would require to consider my involvement on your committee.

Thank you,

A handwritten signature in black ink, appearing to read "John A. Burruel".

John A. Burruel
President and CEO

Carl S. Bottorf, RN, MPA

carlbottorf@flyingicu.com

[REDACTED]

The experience gained through years approximately twenty-five years of acute care, emergency medical, and flight nursing have provided a strong background in traditional, pre-hospital, and transport medicine. Thirteen years of consulting and in-theater performance of international operational medical support for NGO, private, and government contractors have produced the capacity to offer health, and physical protection to special interest groups as well as to provide the appropriate responses in times of crisis. A full military career as both an enlisted member and officer have developed a wide range of skills including evacuation, threat assessment, crisis mitigation, resource utilization, hazard identification, and leadership. Retired from military service 1 March, 2014.

Employment History:

LifeGuard International Air Ambulance - Program Director/Chief Flight Nurse

145 East Reno Street Suite E-7, Las Vegas, NV 89119

Manages all aspects of the "FlyICU" program; Designs and implements all operational, billing, and communications programs. Serves as the chief nursing/clinical care officer for the organization and works closely with the Medical Director to ensure clinical quality and compliance. Works with the CEO to ensure sound business practices, safety, and regulatory compliance.

JTM Training Group - Director of EMS Educational Programs

7055 Speedway Boulevard, Suite E-104, Las Vegas, NV 89115

Creates, designs, and implements various EMS training programs including a scope of entry-level to advanced skill levels. Oversees the registration, on-line education; skills evaluation, and testing for over five hundred enrolled students. Participated in numerous program improvement and steering committees activities within the local, national, and international EMS communities.

Airlift Northwest – Alaska Flight Nurse

8429 Livingston Way, Juneau, AK 99801

June, 2011-February, 2015

Provides coordinated treatment and transportation of seriously sick and injured persons throughout Alaska and the northwestern region of the continental United States. Employs the most advanced emergency and critical care nursing skills to the aerospace environment including airway control, ventilator support, medication administration, dysrhythmia control in caring for the patient population. Participates in committees representing the region's corporate interests in the provision of quality aeromedical evacuation.

people. Participated in improvements to the process of maintaining course records, which resulted in re-accreditations by authorized bodies. Provided consultations to health care activities in preparing for educational activities, such as the Food and Drug Administration, Department of Defense, and the American Society of Health Care Executives (ASCHE). Developed numerous educational programs on counter-terrorism, counter-narcotics, and weapons of mass destruction as they relate to medical emergencies and mass casualties for the public safety sector nationally and internationally.

Maryland Professional Staffing Services Critical Care Nurse

2081 Old Georgetown Road, Bethesda, Maryland June, 1996 - Dec, 1999

Participated in the staffing of various critical nursing care areas at metropolitan Washington, D.C., hospitals. Delivered acute and non-acute nursing care in high-volume emergency departments in an independent status with only brief orientations. Transported stabilized, critically ill patients from the E.D. to hospital's ICU's and Radiology Departments. Regularly independently staffed pediatric emergency department units; often as the sole RN. Assisted with conscious sedation in interventional radiology suites. Regularly staffed post anesthesia care units, providing close observation and care for surgical patients.

Washington County Hospital Association Transport Nurse

251 E. Antietam Street, Hagerstown, MD 21740 Dec, 1997 - April, 1999

Provided intra-hospital critical care transport of appropriate patient populations. Augmented emergency department staff during periods of high acuity. Supplemented and staffed angiography suite and non-interventional heart catheterization lab. Gained a thorough knowledge of all applicable COBRA transportation laws, reducing the risk profile of the organization. Coordinated all aspects of the transport of critically ill patients into and out of the facility. Provided direct patient care to critical patients on numerous ground and rotary-winged transports. As a division of the ICU, participated in all hospital-related committees as needed.

Casualty Care Research Center, Department of Military and Emergency Medicine, Uniformed Services University of the Health Sciences, Department of Defense

Faculty/Chief, Educational Support Branch (Spec. Deputy, United States Marshal) Supervised 6 direct reports and clinically managed 28 contracted and active duty military healthcare professionals.

4301 Jones Bridge Road, Bethesda, Maryland 20814-4799

April, 1996 - January, 1998

Developed and implemented improvements to educational programs presented by the organization; specializing in the concept of Operational Medicine. Designed and implemented clinical and educational activities to demonstrate the efficacy of telemedicine on a worldwide basis. Provided direct medical support for various supported federal organizations. Developed the "Vision" for the organization and fostered the implementation of long and short-term goals. Enhanced the image of the organization by participating in numerous teaching activities in medical school

**446 Air Reserve Wing, Air Force Reserve Command, Joint Base Lewis-McChord, WA
Dec 2013-March 2014**

Critical Care Transport Team Nurse (CCATT), world-wide mobility deployable. Provides oversight and accountability over the unit's key clinical competency and compliance programs. Reports directly to the Commander and the Nurse Executive.

th

45 Aeromedical Evacuation Squadron/Medical Readiness Flight Major, Flight Nurse

th

927 Air Reserve Wing, Air Mobility Command, MacDill AFB, FL 33621

October, 2009 – Dec 2012

Air Force Flight Nurse, Deputy Flight Commander for Medical Readiness in an aeromedical evacuation flying squadron with a high deployment tempo. Also co-assigned as the Nurse Manager for a special ops large unit co-located on the same base (July 2010).

**603 Air and Space Operations Center/ Aeromedical Evacuation Control Team Major,
Flight Operations Manager**

United States Air Forces Europe (USAFE), Ramstein Air Base, Germany

March, 2008 – Oct 2009

Coordinates, supervises, and manages all routine, and urgent aeromedical evacuations for US and allied interests in Africa, Afghanistan, Iraq, and European theaters of operations. Works with classified and sensitive materials and conducts communications via various types of equipment. Liaison with US embassies to provide the necessary diplomatic approvals and clearances for mission accomplishment.

**Contingency Operations Branch, School of Aerospace Medicine, USAF Major, Adjunct
Faculty, Instructor**

Brooks Air Force Base, Texas

July, 2000 – February, 2008

Reservist (the only one) serves as an adjunct faculty member for various educational offerings - Aeromedical Evacuation Medical Technician Course (paramedics), Flight Nurse Basic Course, Critical Care Aeromedical Transport Team course (physicians, nurses, and resp. therapists), and Survival Training. Served as interim officer in charge of the Air Evacuation Control Team for the theater of operations encompassing Europe, CENTCOM, and Africa. Participated in evaluating the role of the National Disaster Management System in traditional aeromedical evacuation during disaster situations.

**Department of Military and Emergency Medicine, Uniformed Services University of the
Health Sciences – Program Coordinator, CHE for Health Professionals**

4301 Jones Bridge Road, Bethesda, Maryland 20814-479

programs and national level conferences. Implemented training and recommended the purchase of automatic external defibrillators for all field offices of the Secret Service resulting in at least two confirmed saves to date.

Charlotte County Fire and Emergency Medical Services Deputy Chief, EMS

22429 Edgewater Drive, Punta Gorda, FL 33980 February, 1995 - April, 1996

Promoted to the position of senior-ranking EMS officer with the sudden medical disability of the Chief of Department, functioned as the leader of the organization's EMS division, containing 165 employees. Implemented a reactive trauma alert and helicopter transport system to the nearest centers 65 miles away, decreasing morbidity and mortality. Monitored and enforced compliance with established policy. Adopting the concept of ALS fire engines, introduced the availability of paramedic care into previously unserved areas of the county. Developed and implemented previously non-existent disaster response plans for all local healthcare facilities.

Emergency/Trauma Services, Bayfront Medical Center Staff Nurse, Trauma

710 Sixth Street, South, St. Petersburg, Florida 33714

January, 1988 - August, 1994

Originally employed as a clinical paramedic, assigned to the Pediatric Emergency Department to provide triage and treatment as a member of a nurse/paramedic team. Promoted to RN, completing curriculums and fellowships in Trauma Nurse Specialist and Critical Care Nursing; used the skills and knowledge to strengthen competency as a Trauma Team Leader and respected member of E.D. staff.

Education:

Master of Arts, Military Arts and Sciences Air Command and Staff College, Maxwell AFB, AL

Master of Public Administration, Health Care Management

Troy State University, Alabama

Bachelor's of Science, Health Studies

Charter Oak State College, New Britain, CT

Associate of Science, Nursing

University of the State of New York (now Excelsior University), Albany, NY

Associate of Science, Emergency Medical Technology - Paramedic

St. Petersburg Junior College, Clearwater, FL

Military Participation:

446 Aeromedical Staging Squadron/Chief of Professional Development Supervises 45 officer and enlisted members.

January, 1996 - July, 2000

Reservist assigned to organization. Assisted in the delivery of numerous courses - ACLS, CPR, Operational Emergency Medical Skills, Combat Medical Skills, and field training exercises for medical students. Developed and delivered specialized educational offerings to medical personnel from the Department of State, White House Medical Unit, and the Aeromedical Isolation Team. Supported and promoted the organization by participating on marathon running teams.

th

th

610 Aeromedical Evacuation Squadron (formerly 37 Aeromedical Evac. Group) 9035 S. Bayshore Blvd., MacDill Air Force Base, Tampa, FL

February, 1992 - Jan, 1996

Reservist assigned as a fully-qualified Air Force Flight Nurse. Maintained all records and developed all training for chemical and biological attack for the five hundred-person organization. Additional duties included Flight Safety Officer and Assistant OIC of a mobile aeromedical staging facility (MASF). Awarded Distinguished Honor Graduate from flight nurse course. Numerous deployments completed.

rd

HHC, 1/131 Command Aviation Rgt. (formerly HHC, 53 Infantry Bde, Det 1)

Drane Field Road, Lakeland, FL

Dec, 1985 - February, 1992

Reservist assigned as a utility helicopter repairman assigned to multi-purpose platoon. Real-world deployments included frequent counter-narcotic and medevac missions in tropical climates. Numerous hours logged in rotary-winged aircraft (approx. 2,300).

Certifications

Paramedic, Nationally Registry of EMT's Registered Nurse (over 30 years)
Mobile Intensive Care Paramedic (MICP) - Alaska

Devon Eisma RN, CEN, EMS-RN

Devon.eisma@airmethods.com

Mr. Tafoya:

I am writing this letter to express my interest in a position on The Advisory Committee on EMS for Nevada. As a Nevada resident for the past fifteen years, my family and I have had the opportunity to interact with the EMS system on many different levels.

My career as a registered nurse began in 2007 in a small emergency department in Southern Nevada. Since that time, I have had the privilege of representing several different organizations as a bedside nurse, manager, and leader. I began my rotor flight career in Arizona in 2010 as both a nurse and manager, continued on to fixed wing in 2012 as a nurse, and have now had the privilege of serving the citizens of Southern Nevada as a rotor flight nurse and the Regional Clinical Manager for Mercy Air.

I believe that I am suited for this position due to my strong background in critical care emergency medicine, along with my ties to the communities I have been able to serve. I have strong interpersonal communication skills and excel in building relationships with the public, my employees, and my coworkers. I feel that I can bring a very real, grounded perception to EMS in Nevada without sacrificing any of the goals that Nevada EMS is able to achieve. I have a strong desire for Nevada EMS to be viewed by its peers as "the best" and I look forward to my continued role in reaching that goal in the near future.

Sincerely,

Devon Eisma, RN, CEN, EMS-RN
Regional Clinical Manager, Region 2

To Whom It May Concern,

I have known Temple Fletcher in a professional capacity for many years. We have worked together on projects for the provision of emergency services throughout northern Nevada. Temple has been a member of the Northern Nevada Fire Chief's Association and the Sierra Front Wildfire Cooperators for years and has contributed to these organizations's knowledge base.

Temple is a good communicator who is passionate about the emergency services field. She has been very committed to improving the service delivery of Care Flight and ensuring a great working relationship between the flight crews and field providers. She is clearly committed to safety, training, and community service.

We have had occasion to interact with Temple in her capacity as a responder with a Critical Incident Stress Management team. In this role, Temple continues to demonstrate her leadership capability, compassion, and caring for the emergency services industry.

In summary, I highly recommend Temple to serve in the open Air Representative position on the Committee on Emergency Medical Services. She will be an asset to the committee and will be a collaborative, team-oriented leader for those of us in the EMS community.

If you have any questions, please do not hesitate to contact me.

Sincerely,

R. Stacey Giomi, Fire Chief
President, Nevada Fire Chiefs Association

Nevada State EMS Committee
4150 Technology Way, Suite 101
Carson City, Nevada 89706

Dear Committee Members:

It is my great pleasure to recommend Temple Fletcher for consideration as a air medical representative for the Nevada State EMS Committee.

Ms. Fletcher and I have been co-workers at REMSA/Care Flight for more than seven years, and I knew her personally before I came to this agency.

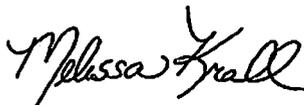

In my experience, Ms. Fletcher has extensive training and experience in emergency services. In her professional career, she has worked throughout our state in both rural and urban settings. She takes personal pride in working as a team member, and as an active manager throughout our company, she has developed into a compassionate, conscientious supervisor who advocates for her staff and coworkers.

She has repeatedly demonstrated her dedication to continual improvement and expansion of her skills and responsibilities. We have volunteered together on the Sierra Nevada Critical Incident Stress Management Team since I joined the team in 2005, and Ms. Fletcher has provided great leadership, coordination and support for all types of emergency responders facing critical incidents over the years.

Because I have served as the Family Representative to the Nevada State EMS for Children Committee, I believe I understand the skills and traits that will be beneficial to the State EMS Committee. I have found Ms. Fletcher to be passionate, committed and responsible in all of her tasks and duties, both personally and professionally. She would be an incredible asset as a member of the EMS Committee.

If you have further questions, please do not hesitate to contact me at [REDACTED]

Sincerely,

Melissa Krall

Carson City, NV 89706

Mr. Tafoya

I understand there are positions available on the EMS Advisory Committee and by way of this letter I would sincerely express my desire to become part of the EMS Advisory Committee.

I have attached with this letter my CV that is specific to my time in Healthcare, EMS and the HEMS industry. My time in EMS covers back to 1980 when I first became an EMT and specifically 1986-1991 where I spent this time frame as a member of a national mine rescue team. My team was and remains the only mine rescue team to be recognized by the Department of Labor and Mine Safety and Health Administration (MSHA) for "Exemplary Mine Rescue Service". These lifetime experiences are quite in-line with the activities and atmosphere of Nevada EMS.

I am anxious to give back my time to the EMS System to be part of the EMS Advisory Committee. I look forward to further conversation. Should you need additional data please do not hesitate to contact me directly.

Respectfully

**RE: Application for Appointment to the Advisory Committee on EMS:
"An employee of an organization that provides air ambulance
emergency medical services whose duties are closely related to such
emergency medical services."**

Dear Mr. Tafoya,

The purpose of this letter is to express my interest in applying to be the air ambulance representative to the EMS Committee for the Nevada Division of Public and Behavioral.

As you know, I have been a practicing flight nurse, air ambulance business owner, and advocate for emergency air care issues in Nevada for many years. The combination of these aspects of my career and my air ambulance specific experience uniquely position me to be adding depth of perspective into the EMS Committee's activities here in Nevada.

Please find attached my CV/resume that further supports my qualifications to participate in this important committee.

Thank you for your kind consideration.

Respectfully yours,

Donna Miller, EMSRN, CMTE

Dear Mr. Tafoya

I would like to express my interest for the current vacant position on The Advisory Committee on EMS. I have been a paramedic in Nevada for 19 years and have been an employee of an organization that provides emergency ambulance services for the past 18 years in Northern Nevada. I have diversified experience in EMS including ground operations, flight, education, and dispatch.

I would be grateful for the opportunity to further serve my EMS community. I have attached my resume. Thank you for your consideration.
