<u>Material and Use</u>	<u>Fee</u>
1. Special nuclear material:	
(a) As sealed source	\$2,000.00
(b) In unsealed form	2,000.00
2. Source materials for other than milling operations	2,200.00
3. Naturally occurring radioactive material, discrete or diffuse	1,000.00
4. By-product material, artificially produced radioactive material and radium:	
(a) Manufacturing or distribution, or both	2,200.00
(b) Nuclear pharmacy	6,600.00
(c) Industrial radiography	5,500.00
(d) Category 1 (self-shielded) irradiator	1,650.00
(e) Irradiator, other than a category 1 irradiator	1,650.00
(f) Academic, broad scope	8,800.00
(g) Academic, other research and development	1,320.00
(h) Service or laboratory	1,760.00
(i) Fixed gauge	1,100.00
(j) Gas chromatograph	496.00
(k) In vitro	105.00
(l) Portable gauge or X-ray fluorescence analyzer	1,320.00
(m) Therapeutic or diagnostic veterinary use	1,760.00
(n) Linear accelerators (with operational energies capable of exceeding 9 MeV) possession license for incidentally activated products	1,000.00
(o) Cyclotron used to manufacture PET radiochemicals	2,200.00
(p) All other uses of radioactive material except those set forth in subsections 5 to 9, inclusive	1,000.00
5. Well logging	3,300.00
6. Medical use of radioactive material:	
(a) Medical use	4,400.00
(b) General license for in vitro use	125.00
7. Civil defense	276.00
8. Registration of devices generally licensed pursuant to paragraph (a) of subsection 13 of NAC 459.218	250.00
9. Any use of radioactive material by a person who holds a specific license issued by the Nuclear Regulatory Commission or any agreement state	See appropriate fee category above
