**Why do some centers have stars by their name?*

Silver State Stars Quality Rating & Improvement System (QRIS) is a voluntary program open to all child care centers in Nevada. The QRIS is a systemic approach to improve and assess the level of quality in child care centers. The QRIS also helps families find high quality child care that fits their needs and the needs of their children. There is no cost to centers or their families.

Silver State Stars is a five star system:

One Star = center has signed up for the QRIS coaching program. They are working on making center-wide improvements to their policies, procedures, classroom environments, and staff professional development. By participating, centers are demonstrating a commitment to improving quality.

Two Stars – Five Star = center has been officially rated. They have demonstrated and documented quality indicators above licensing regulation requirements. A rating is valid for two years.

Centers not indicated with a star level have chosen not to participate in the QRIS. Home providers are not included in the QRIS at this time.

Centers are rated on a variety of quality indicators that have been nationally researched and go above and beyond what is required by child care licensing. Categories include: ratios; health and safety; curriculum; physical environment; teacher/director qualifications and professional development; family involvement; administration and management; diversity; inclusion; early learning guidelines; child assessment; and national program accreditation.
