

Division of Public and Behavioral Health Technical Bulletin

Topic: New form and FAQs for Overdose Reporting
Contact: Julia Peek, Deputy Administrator, jpeek@health.nv.gov
Date: January 19, 2018

To: Nevada Healthcare Facilities, Physicians, Nurses, Veterinarians, and Physician Assistants

Emergency regulations aimed at curbing opioid abuse in Nevada took effect on Friday, January 19, 2018, when the Division of Public and Behavioral Health (DPBH) filed the regulations with the Secretary of State to comply with Assembly Bill 474 (aka the Controlled Substance Abuse Prevention Act). The emergency regulations provide immediate structure to reporting of overdose or suspected overdose cases to assist with the comprehensive response needed to save Nevadans' lives. These regulations are temporary and will only be effective for 120 days until the permanent regulations can be finalized.

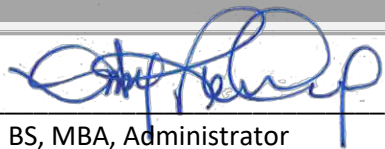

This technical bulletin is to introduce and distribute the new form and FAQs for overdose reporting as required in Nevada Administrative Code Chapter 441A.

State of Nevada		Overdose Reporting Form		 Nevada Department of Health and Human Services <small>Division of Public and Behavioral Health</small>
