

Overview of Services

- Staff will oversee all placements (existing housing, counseling, employment, education and other services). This includes providing outside referrals consistent communication and contact between counselor / case manager with participant, collaboration with outside agencies.
- Counseling Services: The purpose of our counseling services is to help clients achieve their personal goals while gaining insight into their lives. The counselor will offer person centered services as an opportunity for the client to develop greater understanding of themselves.
- Mentoring: Peer to Peer mentoring will be provided by the program's Peer Support Specialists. Peer Support Specialists will be involved based on individual client needs and presenting concerns.

Message

We hope to be a stepping-stone for you to build a safe home environment. This program is based on the idea that participants accept responsibility, care, and show concern for themselves, their family, their peers and their community. We believe that being a part of something greater than oneself is an especially important factor in promoting positive growth.

The responsibilities we will expect you to uphold are to help you begin to relate to and understand the world in a realistic fashion. We believe that if you change your thoughts, thinking, and attitude you will be able to change your behavior and your lifestyle.

"You must take personal responsibility. You cannot change the circumstances, the seasons, or the wind, but you can change yourself. That is something you have control of." ~ Jim Rohn

Respectfully,

Bradford Glover, MCJ
Director

HomeLink
"Uplifting the Human Spirit"

Mission

WestCare mission is to empower everyone with whom we come into contact to engage in a process of healing, growth and change benefiting themselves, their families, coworkers and communities. In the HomeLink Program, we have adopted a person-centered service which is the client is responsible for their program and must guide staff to the goals they wish to reach. Every participant has an individualized plan. This plan is to be formulated by you and your primary counselor and/ or case manager, with input from your family, referral sources, and community resources. You will choose the problems you wish address and the work with your counselor and/or case manager on objectives and strategies to best address those goals. Your goals are then reviewed with you approximately *every 30 days* and possibly sooner if events arise that require a need to adjust your personal plan.

WestCare: Home Visitation Program

WestCare Nevada's Home Visitation Program is a community based program in partnership with Southern Nevada Adult Mental Health Services (SNAMHS), Northern Nevada Adult Mental Health Services (NNAMHS) and Washoe County Detention Facility designed to provide and promote statewide education, safe housing and living arrangements, self –sufficiency skills building, and medication adherence for adults diagnosed with mental illness, substance abuse, and/ or with a criminal history.

Program Structure

This program is a collaborative effort with WestCare and Southern Nevada Adult Mental Health Services (SNAMHS) or Northern Adult Mental Health Services (NNAMHS). There are two screening processes completed; the first by the SNAMHS or NNAMHS and the second by WestCare. After the interviews and screenings have been completed, each participant will be staffed. Participants will be notified with a phone call either stating they have been admitted or will not be admitted into the program. For those who are not admitted, we will provide a list of resources that will benefit the participant through their journey.

Services Being Provided

- Home Visit care management
- Counselling services for substance abuse and mental health
- Peer to peer mentoring
- Transportation
- Support groups
- Community referrals
- And other services
