Source: Nevada State Health Division HIV/AIDS Reporting System (eHARS), (Feb 2012)

New HIV Infections are counted in eHARS surveillance statistics and include HIV and AIDS cases diagnosed in Nevada, both living and deceased. The surveillance data excludes HIV/AIDS cases diagnosed in other states but who currently live in Nevada. HIV Diagnoses and AIDS Diagnoses may duplicate case counts if the person was diagnosed with both HIV and AIDS in the same year.

* Rates per 100,000 population were calculated using 2011 population projections from the Nevada State Demographer vintage 2013 data.

**All other counties include Carson City, Churchill, Douglas, Elko, Esmeralda, Eureka, Humboldt, Lander, Lincoln, Lyon, Mineral, Nye, Pershing, Storey, and White Pine Counties.

Source: Nevada State Health Division HIV/AIDS Reporting System (eHARS), (Feb 2012)

New HIV Infections are counted in eHARS surveillance statistics and include HIV and AIDS cases diagnosed in Nevada, both living and deceased. The surveillance data excludes HIV/AIDS cases diagnosed in other states, but who currently live in Nevada. HIV Diagnoses and AIDS Diagnoses may duplicate case counts if the person was diagnosed with both HIV and AIDS in the same year.

Persons living HIV/AIDS data includes data on persons living in Nevada with HIV (not yet AIDS) and AIDS based on the current address listed in the HIV/AIDS Reporting System (eHARS). These persons may or may not have been diagnosed with HIV or AIDS in Nevada.

* For New HIV infections, age refers to age at HIV infection diagnosis. For persons living with HIV/AIDS, age refers to age at the end of the report year.

**All other counties include Carson City, Churchill, Douglas, Elko, Esmeralda, Eureka, Humboldt, Lander, Lincoln, Lyon, Mineral, Nye, Pershing, Storey, and White Pine Counties.

*Percent change for small counts are not shown as they are susceptible to high variability and are misleading.
