Source: Nevada State Health Division HIV/AIDS Reporting System (eHARS), (Feb 2013)

New HIV Infections are counted in eHARS surveillance statistics and include HIV and AIDS cases diagnosed in Nevada, both living and deceased. The surveillance data excludes HIV/AIDS cases diagnosed in other states, but who currently live in Nevada. HIV Diagnoses and AIDS Diagnoses may duplicate case counts if the person was diagnosed with both HIV and AIDS in the same year.

* Rates per 100,000 population were calculated using 2012 population projections from the Nevada State Demographer vintage 2011 data.

**All other counties include Carson City, Churchill, Douglas, Elko, Esmeralda, Eureka, Humboldt, Lander, Lincoln, Lyon, Mineral, Nye, Pershing, Storey, & White Pine Counties.

Source: Nevada State Health Division HIV/AIDS Reporting System (eHARS), (Feb 2013)

New HIV Infections are counted in eHARS surveillance statistics and include HIV and AIDS cases diagnosed in Nevada, both living and deceased. The surveillance data excludes HIV/AIDS cases diagnosed in other states, but who currently live in Nevada. HIV Diagnoses and AIDS Diagnoses may duplicate case counts if the person was diagnosed with both HIV and AIDS in 2012.

* Rates per 100,000 population were calculated using 2012 population projections from the Nevada State Demographer vintage 2011 data.

Source: Nevada State Health Division HIV/AIDS Reporting System (eHARS), (Feb 2013)

New HIV Infections are counted in eHARS surveillance statistics and include HIV and AIDS cases diagnosed in Nevada, both living and deceased. The surveillance data excludes HIV/AIDS cases diagnosed in other states, but who currently live in Nevada. HIV Diagnoses and AIDS Diagnoses may duplicate case counts if the person was diagnosed with both HIV and AIDS in the same year.

Persons living HIV AIDS data includes data on persons living in Nevada with HIV (not yet AIDS) and AIDS based on the current address listed in the HIV/AIDS Reporting System (eHARS). These persons may or may not have been diagnosed with HIV or AIDS in Nevada.

* For New HIV infections, age refers to age at HIV infection diagnosis. For persons living with HIV/AIDS, age refers to age at the end of the report year.

**All other counties include Carson City, Churchill, Douglas, Elko, Esmeralda, Eureka, Humboldt, Lander, Lincoln, Lyon, Mineral, Nye, Pershings, Storey, & White Pine Counties.

¹Annual % Change is the percent change in the number of new HIV infections or persons living with HIV/AIDS from 2011 to 2012.

Please Note: Due to the closure of the Southern Nevada Health District's main building in 2012, the number of HIV tests administered in Clark County in 2012 was much lower than in 2011. The decline in the number of new HIV infections from 2011 to 2012 was most likely due to this decline in testing.
