- Immediate:* As soon as the regulations are implemented, the Division will be able to establish the certification process and providers will be able to apply for certification and begin offering tenancy housing services.
- Long-term:* These regulations allow for a mechanism by which Medicaid can reimburse for tenancy housing services for certified providers. This will also enable individuals to maintain housing who previously could not without these services.

2. Anticipated effects on the public:

- Adverse:* There is no anticipated adverse impact on the public.
- Beneficial:* The public will have access to tenancy housing services which were previously unavailable.
- Immediate:* There is no anticipated immediate effects on the public.
- Long-term:* The public will have access to tenancy housing services as well as Medicaid reimbursement.

3. The estimated cost to the Division of Public and Behavioral Health for enforcement of the proposed regulations is estimated to be an initial fee of \$100 with an annual renewal fee of \$100. These fees are set in proposed regulation and would be used to cover the costs to enforce the proposed regulations.

The proposed regulations do not overlap or duplicate any other Nevada state regulations.
