

# ZOOM Into EMS

Date	Day	Time	Speaker	Session	Registration
9/12/20	Sat	10 am – 12 pm	Bobbie, UNR	Welcome to Zoom into EMS/ State of the State	<a href="https://zoom_into_ems-welcome.eventbrite.com">https://zoom_into_ems-welcome.eventbrite.com</a>
This class is designed for participants to become familiar with EMS ZOOM classes including registration and attendance requirements. State EMS will give an update on how COVID is affecting procedures and requirements. They will also answer any questions participants may have.					
9/19/20	Sat	8 am – 12 pm	SMD At UNRSOM Office	CPR Renewal	<a href="https://zoom_into_ems-cpr_renewal.eventbrite.com">https://zoom_into_ems-cpr_renewal.eventbrite.com</a>
9/19/20	Sat	1 pm – 5 pm	SMD At UNRSOM Office	Skills Check off	<a href="https://zoom_into_ems-skills.eventbrite.com">https://zoom_into_ems-skills.eventbrite.com</a>
9/24/20	Thurs	6 pm – 8 pm	Krasner, Pandori, AETC	COVID Update / Blood borne Pathogen Update	<a href="https://zoom_into_ems-covid_bloodborne_pathogen_update.eventbrite.com">https://zoom_into_ems-covid_bloodborne_pathogen_update.eventbrite.com</a>
9/26/20	Sat	8 am – 12 pm	SMD At UNRSOM Office	CPR Renewal	<a href="https://zoom_into_ems-cpr_renewal.eventbrite.com">https://zoom_into_ems-cpr_renewal.eventbrite.com</a>
9/26	Sat	1 pm – 5 pm	SMD At UNRSOM Office	Skills Check off	<a href="https://zoom_into_ems-skills.eventbrite.com">https://zoom_into_ems-skills.eventbrite.com</a>
Dr. Pandori will discuss Public Health measures to slow community spread of COVID-19. Dr. Krasner will discuss the effects of COVID on pre-hospital when treating a COVID positive or potential COVID positive patient in the field. The AIDS Education Training Center will discuss updated on Bloodborne Pathogens specific to pre-hospital care providers.					
10/10/20	Sat	10 am – 12 pm	Kerry Tuckett	Wilderness Medicine	<a href="https://zoom_into_ems-wilderness_medicine.eventbrite.com">https://zoom_into_ems-wilderness_medicine.eventbrite.com</a>
Wilderness Medicine can present a number of problems for EMS providers. Getting to the patient, treating the patient with limited resources, moving the patient and getting them to the hospital in a timely manner can be a challenge. Kerry will address these issues and more in this session.					

# ZOOM Into EMS

10/22/20	Thurs	6 pm – 8 pm	JD Davis	Diabetic Emergencies	<a href="https://zoom_into_ems-diabetic_emergencies.eventbrite.com">https://zoom_into_ems-diabetic_emergencies.eventbrite.com</a>
JD will discuss updates for Adult Diabetes and Juvenile Diabetes. JD has personal experience with diabetes and will discuss it from the patient's point of view. He is, also, an EMS provide and will provide updated information for the pre-hospital provider.					
11/7/20	Sat	10 am – 12 pm	Lee Cabiness	Stop the Bleed	<a href="https://zoom_into_ems-stop_the_bleed.eventbrite.com">https://zoom_into_ems-stop_the_bleed.eventbrite.com</a>
Stop the Bleed will provide information to enable you to recognize life-threatening bleeding and intervene effectively. STOP THE BLEED, AND SAVE A LIFE.					
11/10/20	Tues	6 pm – 8 pm	Dr Wint & Dr Ritter – Clevand Clinic	Dementia Training for First Responders	<a href="https://zoom_into_ems-dementia.eventbrite.com">https://zoom_into_ems-dementia.eventbrite.com</a>
Learn from specialists in neurocognitive disorders about behavioral challenges and cognitive limitations of individuals with dementia, and how to better interact with them and manage difficult situations					
11/19/20	Thurs	6 pm – 8 pm	Kirk Mittelman	Affects of COVID on EMS	<a href="https://zoom_into_ems-affects_of_covid_on_ems.eventbrite.com">https://zoom_into_ems-affects_of_covid_on_ems.eventbrite.com</a>
Covid 19 has changed the way we work, how we communicate, and even where we go! Unlike other business, we cannot stay at home and do our work. EMS is directly in the face of this public health emergency, but has changed the way we work. COVID has increased our usage of PPEs and deep sanitation of ambulances has become the standard. How we communicate has been affected too. Now its fist bumps and ZOOM. Getting signatures is not a simple process like before. Doctors are not in their offices and we don't want a patient to touch our pens. Where do we go once we have a patient? Hospital or parking lot?					
12/5/20	Sat	10 am – 12 pm	Rick Howard	I'm Normal, Aren't You? PTSD, Nuff Said	<a href="https://zoom_into_ems-ptsd.eventbrite.com">https://zoom_into_ems-ptsd.eventbrite.com</a>
A study was done involving EMS workers in Israel that showed 99% of them had PTSD. What studies have been done in the U.S.? Are we a throw-away profession? We are supposed to control and hide our feelings so that our patients will have confidence in us, Correct? We need to take care of ourselves, rural, urban, big department, small agency, paid or volunteer. It doesn't matter, we need to look out for each other. But how do we do that?					

# ZOOM Into EMS

12/17/20	Thurs	6 pm – 8 pm	Kirk Mittelman	Recognizing Sepsis and Differential Diagnosis	<a href="https://zoom_into_ems-sepsis.eventbrite.com">https://zoom_into_ems-sepsis.eventbrite.com</a>
Sepsis is the 11 <sup>th</sup> leading cause of death in the United States. Studies suggest that patients brought into the ED by EMS do not fair as well as patients who walk into the ED. Kirk will discuss how pre-hospital providers can improve the outcomes in the field for a sepsis patient. There are many conditions that may cause a patient to be septic. Asking the right question and recognizing S/S may result in a better outcome for a sepsis patient.					
1/9/21	Sat	10 am – 12 pm	Rick Howard	What To Do When the Bump Gets Bumped – Trauma in Pregnancy	<a href="https://zoom_into_ems-trauma_in_pregnancy.eventbrite.com">https://zoom_into_ems-trauma_in_pregnancy.eventbrite.com</a>
That bump gets in the way during the last few months of pregnancy. It can and will be a pain for all. It will be worse if there is trauma applied to it. This class will cover a lot of the old stuff that we already know and a lot of new stuff that will help us recognize injury and how to treat mom and baby.					
1/21/21	Thurs	6 pm – 8 pm	Kirk Mittelman	Pediatric Potpourri	<a href="https://zoom_into_ems-pediatric_potpourri.eventbrite.com">https://zoom_into_ems-pediatric_potpourri.eventbrite.com</a>
Few calls cause great anxiety than caring for a sick or injured child. Pre-hospital care providers must be prepared for the challenges of a pediatric emergency. Prompt recognition and treatment of potentially life-threatening diseases or injuries may have a significant impact on the outcome of the patient. Kirk will provide participants with information to assess and treat a variety of pediatric patients.					
2/6/21	Sat	10 am – 12 pm	Rick Howard	When Was the Last Time You Were Normal – STROKE, STROKE, STROKE	<a href="https://zoom_into_ems-stroke.eventbrite.com">https://zoom_into_ems-stroke.eventbrite.com</a>
Great improvements have been made in the area of stroke treatment. Most of it is based on the patient is treated in the pre-hospital setting, by us. We will review national protocols for and how to improve our treatment to save the injured brain.					
2/25/21	Thurs	6 pm – 8 pm	Cody Allen / Rob Carter	Mining & Burns / Crush Injuries	<a href="https://zoom_into_ems-burns_and_crush_injuries.eventbrite.com">https://zoom_into_ems-burns_and_crush_injuries.eventbrite.com</a>
The first hour of class will be spent talking about mining and burn injuries. Burn wounds are common injuries where heavy duty and electrical equipment are being used. Burns occur from a number of sources. The most common are electricity, chemical, radiation and open heat sources. Cody will discuss the assessment and treatment of burns specific to the mining environment.					
Rob will review different types of crush injuries and the assessment and treatments for the various types using the EMS Crush Syndrome Protocols. Crush Injuries specific to mining will be discussed as well.
