The goal is to define the criteria for compliance for University Medical Center of Southern Nevada Pathology (Licensed Laboratory #1507) located at 1800 W. CHARLESTON BLVD., LAS VEGAS, NV and the State Board of Health ("Board").

A. NAC 652.195 allows a licensed laboratory to collect specimens or perform tests, or both, at a location other than the location set forth in its license by obtaining a permit to operate a laboratory at a temporary location.

Compliance Agreement
Division of Public and Behavioral Health and Culinary Health Fund

This Compliance Agreement is made and entered into effective on May 13, 2020, by, between, and among the Bureau of Health Care Quality and Compliance of the Division of Public and Behavioral Health of the Nevada Department of Health and Human Services of the State of Nevada (“BHCQC”), Culinary Health Fund (“Fund”), the State Board of Health (“Board”).

RECITALS

The goal is to define the criteria for compliance for Culinary Health Fund located at 1901 Las Vegas Boulevard South, Suite 101, Las Vegas and the State Board of Health (“Board”).

Due to the COVID-19 outbreak and the need to expand testing BHCQC is postponing the enforcement of the certification of an office laboratory assistant in accordance with NAC 652.4855 so that a physician can delegate to medical assistants employed by the Culinary Health Fund that have been found competent to collect laboratory specimens to do so during the COVID-19 emergency crisis.

The Governor’s directive allows a medical assistant to work outside of their scope during the COVID-19 crisis; therefore, the medical assistant would be allowed to work beyond the scope of work in NRS 652.210 which would require a medical assistant to be a technical personnel of a laboratory in order to collect specimens.

NOW, THEREFORE, it is hereby agreed as follows:

BHCQC will postpone the enforcement of the requirement for a medical assistant to become certified in accordance with NAC 652.4855 and the Culinary Health Fund shall be allowed to use medical assistants employed by the Fund to collect specimens in accordance with the Governor’s order so long as:

- 1) The medical laboratory’s collection of specimens is overseen by a physician; and
- 2) The physician has determined the medical assistant is competent to perform the specimen collection.

Term of Agreement. This Agreement shall remain in effect until the Governor lifts the order allowing medical assistants to work outside of their scope of practice.

Requirements. The medical assistant’s collection of specimens is overseen by a physician and the medical assistant is competent to perform such collections.

IN WITNESS WHEREOF, the parties have executed this Agreement effective the day and year first above written.

Compliance Agreement

Division of Public and Behavioral Health and Neighborhood Health Center, LLC

This Compliance Agreement is made and entered into effective on May 13, 2020, by, between, and among the Bureau of Health Care Quality and Compliance of the Division of Public and Behavioral Health of the Nevada Department of Health and Human Services of the State of Nevada ("BHCQC"), Neighborhood Health Center, LLC ("Center"), a subsidiary of the Culinary Health Fund, a/k/a UNITE HERE HEALTH, and the State Board of Health ("Board").

RECITALS

The goal is to define the criteria for compliance for Keck Medicine, a division of the University of Southern California ("USC"), which is currently contracted by the Center to perform certain primary care services at the Culinary Health Center, located at 650 N Nellis Blvd, Las Vegas, and the State Board of Health ("Board") and desires to utilize its medical assistants to perform COVID-19 testing services.

Due to the COVID-19 outbreak and the need to expand testing BHCQC is postponing the enforcement of the certification of an office laboratory assistant in accordance with NAC 652.4855 so that a physician employed by USC can legally delegate to similarly employed medical assistants that have been found competent to collect laboratory specimens to do so during the COVID-19 emergency crisis.

The Governor's directive allows a medical assistant to work outside of their scope during the COVID-19 crisis; therefore, the medical assistant would be allowed to work beyond the scope of work in NRS 652.210 which would require a medical assistant to be a technical personnel of a laboratory in order to collect specimens.

NOW, THEREFORE, it is hereby agreed as follows:

BHCQC will postpone the enforcement of the requirement for a medical assistant to become certified in accordance with NAC 652.4855 and the Center and USC shall be allowed to use medical assistants employed by USC to collect specimens in accordance with the Governor's order so long as:

- 1) The medical laboratory's collection of specimens is overseen by a physician; and
- 2) The physician has determined the medical assistant is competent to perform the specimen collection.

Term of Agreement. This Agreement shall remain in effect until the Governor lifts the order allowing medical assistants to work outside of their scope of practice.

Requirements. The medical assistant's collection of specimens is overseen by a physician and the medical assistant is competent to perform such collections.

IN WITNESS WHEREOF, the parties have executed this Agreement effective the day and year first above written.

The Neighborhood Health Center, LLC and the State Board of Health ("Board").

Compliance Agreement
Division of Public and Behavioral Health and Rural Hospital Partners representing the
Rural Hospitals of Nevada

This Compliance Agreement is made and entered into effective on the 20 day of March, 2020, by, between, and among the Bureau of Health Care Quality and Compliance, the Division of Public and Behavioral Health and Rural Hospital Partners.

RECITALS

A. The goal of this agreement is to suspend enforcement the bed increase fee for rural hospitals during the COVID-19 crisis to increase rural hospital bed capacity beyond 25 beds. Once the federal government lifts the waiver to allow for a bed capacity beyond 25 for critical access hospitals, the hospitals will need to decrease their bed counts back to pre-crisis level.

B. The necessity for the temporary changes as listed above is to assist in handling the higher than anticipated patient volumes related to the COVID-19 emergency that will impact the rural community hospitals, resulting in patients waiting for hospital beds.

C. Patients will be managed in accordance with the hospital's bed capacity management plan which includes making provisions in other areas of the hospital and/or transferring to other facilities.

E. Nevada Administrative Code (NAC) 449.016 provides that a rural hospital must pay the Division a nonrefundable fee of \$62 per bed. This fee would pose a hardship to rural hospitals during this emergency.

NOW, THEREFORE, it is hereby agreed as follows:

F. State Licensure. Rural hospitals fall under the provisions of Nevada Administrative Code (449). Bed capacity beyond the current number licensed by DPBH will require a bed change application to be submitted using the On-line licensing system without payment of the nonrefundable fee of \$62 per bed.

G. Term of Agreement. This Agreement shall remain in effect until the chief medical officer terminates this agreement

Requirements. Except as otherwise provided in this Agreement, the Rural Hospitals will maintain compliance with all applicable provisions of NAC Chapter 449.

IN WITNESS WHEREOF, the parties have executed this Agreement effective the day and year first above written.

RECITALS

The goal is to define the criteria for compliance of Smart Choices located at 900 S VALLEY VIEW BLVD UNIT 195 LAS VEGAS, NV 89107("Program"), which is owned and operated by Bite Rite, Inc.
