Due to the COVID-19 outbreak and the need to expand testing, BHCQC is waiving the \$500 initial laboratory license fee in accordance with NAC 652.488(1)(f) so that the fees will not act as a financial burden on the Nevada Public School system and the public schools in Nevada will have the availability to provide COVID-19 testing to the students and staff of the schools in this district.

NOW, THEREFORE, it is hereby agreed as follows:

BHCQC will waive the initial laboratory licensing fee for the Nye County School District in accordance with NAC 652.488(1)(f). The subsequent State of Nevada laboratory license biennial renewal fees will be required to be paid according to the fees associated with this category of laboratory stipulated in NAC 652.488.

Term of Agreement. This Agreement shall remain in effect until the Governor lifts the emergency declaration.

Requirements. The COVID-19 collection and testing personnel are required to meet the requirements in accordance with NRS 652.210(1). Any person that is identified to collect or perform laboratory testing that does not meet the requirements in NRS 652.210(1), must be licensed by the State of Nevada as an Office Laboratory Assistant (OLA). All laboratory collection and testing personnel will be required to have documentation of training and competency before collecting or testing human specimens.
