Emergency Board of Health Meeting and COVID requirements

**Title of idea/comment:**

Opposition to mandatory vaccination and/or testing

**Description of idea/comment:**

I oppose any and all requirements for mandatory vaccination and or testing. The COVID vaccination has not been approved by the FDA; they have not been proven effective (vaccinated people still must wear masks) and have not had any testing to determine long term effects of vaccination. The right to avoid the imposition of human experimentation is fundamental; therefore mandatory vaccination or having to get tested should be opposed.
