**Subject:** Public Comment from 8.10.21 Emergency Meeting  
**Date:** Tuesday, August 10, 2021 6:17:50 PM

---

Good afternoon,

My name is Chelsea Villegas, I'm a tax payer and homeowner in Sparks, NV. I am a certified secondary science teacher, credentialed in biology. I have a Master's in Secondary Science Education from the University of San Francisco. I have immediate family who are affected by the proposed vaccine mandate for all students, faculty and staff within the Nevada System of Higher Education. This mandate affects easily over 100,000 students and many thousands of employees within NSHE. As a science-literate educator, I am absolutely astonished and bewildered at the complete lack of suspicion or inquiry into the possible negatives of this mandate by my colleagues - and especially my peers in higher ed. I am also very upset that a critical discussion such as this one was not sufficiently publicly advertised. These meetings are happening covertly and secretly while unlawful and dangerous mandates are casually laid out for our children and families.

Never before in history have we attempted to mass inject an entire national population – nay a GLOBAL POPULATION - with an experimental gene therapy (or any drug for that matter). The fact that this operation could have severe and dire consequences on humanity and the future of our children's lives seems to evade even my brightest peers. It is honestly baffling to me. The fact that people have been severely injured and killed already by this open-air, real-time experimental vaccine trial, seems to mean nothing to my peers. No one is liable for vaccine damages! Families are left in ruins to pick of the pieces of their once-healthy lives. The vaccine manufactures are exempt from liability, and in a surprisingly pro-regime move, OSHA has suspended employees' rights to hold employers liable for damages due to mandating the vaccine through May 2022. This vaccine also DOES NOT STOP THE SPREAD OF COVID as was recently admitted by the white house. Dr. Fauci recently stated that vaccinated and non-vaccinated people carry the same nasal viral load (hence the return of endless mask mandates regardless of vax status). According to the most recent data out of England which the public commenter Jesse sourced in his comments, vaccinated people do seem to have slightly less likelihood to have severe illness (55% hospitalized were not vaxxed, 45% were vaxxed or had unknown vax history). I noticed that “Manzana” (who spoke after Dr. Jesse Krause) did not have a source to back up her parroted claim that 95% of hospitalized people are unvaxxed.

There is a pro-state, communist-style censorship being practiced in every single cultural institution, from big tech and social media, to traditional media, to big pharma, to governments both national and local. The higher ed and K-12 system have also clearly bought into the pro-state narrative and they attempt to silence or cancel anyone who questions it. I studied media communications and communication history in my undergrad – and the level of pro-state propaganda that has infiltrated every single cultural institution should send chills down the spine of any human being who possesses an iota of critical thought. It has become clear to me that most people have never met someone who escaped communism or had to listen to the horrors they endured.

Doctors, experts and trained immunologists and virologists are being censored if their opinion happens to counter the regime. Even the inventor of the PCR test (Kary Mullis) spoke against PCR being used as a diagnostic tool, since PCR amplification can create the illusion of a haystack from a single needle of hay – it is a qualitative measurement technology, not quantitative. The CDC even quietly lowered the PCR amplification cycle count from a

ridiculous 40 down to 25 a few months ago, recognizing this very issue - and they also quietly removed their endorsement of the rapid antigen test a few short days ago due to the magnitude of false results (AFTER both were widely used as diagnostic tools for over a year). Even the inventor of mRNA gene therapy technology (Dr. Robert Malone) who recently spoke out against a one-size-fits-all approach to distributing this vaccine has been censored and punished. He was retaliated against for his views and deplatformed off multiple pro-regime, pro-state online platforms like YouTube, Facebook, Instagram and LinkedIn.

I was a liberal my entire adult life until 2020. I was then forced to admit I was in an abusive relationship with my party. Watching the events of 2020 unfold I must now ask, why is one party determining every aspect of our lives, including whether we can leave our home, or uncover our faces, or share information publicly, or gather with family. Why are governments and corporations openly violating the international Nuremberg Code by coercing us to inject an experimental therapy into our entire populace (lest we face consequences such as loss of livelihood, forced testing, public infamy/being “canceled” or even loss of access to basic public goods and services)? Why are they forcing us to accept illegal and unconstitutional "mandates," like infinite, cyclical, indefinite lockdowns, forced facial attire over the only holes we have to breathe with, small business closures (while megacorps stay open and get richer and more powerful) and SCHOOL CLOSURES for our children who are failing and falling behind over something that doesn't even affect them on whole? This whole societal makeover is due to a cold virus with an average 99.98% recovery rate, population-wide.

Please, for the love of God, WAKE UP and smell the tyranny. If we allow this one mandate, this trend will never end. There will soon be mandatory health passes, yearly required boosters, then new forms of control like “climate” lockdowns, martial law for political dissidents, and eventually full-blown totalitarianism. The United States is a unique experiment in freedom, leading the way for every democratic nation on Earth...Please STOP UNKNOWINGLY DESTROYING IT. The road to hell is paved with good intentions. Before the USA came into being, monarchy, dictatorship, authoritarianism and totalitarianism were the only ways governments operated. Governments will always slide quickly in that direction if we allow them, it is their natural state of being! We must diligently fight for freedom in every generation. Once rights are given up, they are not returned! Please recognize that the only alternative to individual freedom is slavery to a ruling class, and we are WELL ON OUR WAY. When we give up our body autonomy, we forever lose our liberty. You can vote yourself into communism, but your children will have to war their way out.

This is not about health. This is about control. If we accidentally sterilize or maim an entire generation because the spike protein from this injection multiplies exponentially and destroys reproductive tissue, brain tissue, or vital organs, THE BLOOD IS ON YOUR HANDS. WE HAVE NO LONG-TERM DATA on these vaccines. Science is NOT INFALLIBLE!!! \$4.6 billion has been paid out to victims of vaccine injury since 1986 from the Vaccine Injury Compensation Fund - and the court only hears approximately 1% of all injury cases. And that's for all the FDA approved vaccines that went through all clinical and animal trials - unlike ALL the COVID vaccines currently on the market. Young people, including college-aged students, are not negatively affected by this disease – particularly compared to influenza. Those who are worried can “protect” themselves with vaccines and masks and regular testing. But I vehemently reject forced nasal cavity swabs for my family, forced injections, forced invasion of medical privacy and forced release of medical records, and vaccine passports. I vehemently reject this medical and social tyranny on every level and I urge you to awaken. Please awaken and see what is happening on a global scale. We are entering a concentration of power never before seen. Other powerful nations will follow suit with whatever we allow here - and perhaps a centralized global governance even emerges from this. An extremely dangerous cultural and political journey begins with this first step.... PLEASE DON'T TAKE IT.

Thank you,  
Chelsea Villegas, M.Ed.
