Subject: Mandatory Covid-19 Vaccinations for NSHE students
Date: Monday, August 16, 2021 9:22:13 PM

I'm am writing you this evening to discourage this awful proposition against our kids. This obstruction of our academic freedoms is coercion and abuse. To dangle education over a person's head and tell them they cannot learn unless they put their body on the line for potential damage - potentially lifelong damage, or worse, is gross misconduct. Nobody should be allowed to have the right to force something that can cause physical harm to another.

This type of regulation, should it be enforced, will set a precedent we cannot allow. We cannot allow for Nevada or any Nevada schools to follow such cruel and unethical policies. To force a non FDA approved vaccination is absurd. Please do not allow this form of abuse and indoctrination in our schools, leave any and all vaccinations a choice. Thank you!

Meghan Downing
