Dear Dr. Jon Pennell, DVM; Dr. Jeffrey Murawsky, MD; Dr. Trudy Larson, MD; Dr. Monica Ponce', DDS; Judith Bittner and Charles Smith,

I am contacting you today about any current or future consideration by the Nevada Board of Health to require that children receive COVID vaccines as a requirement for school enrollment and attendance in the state of Nevada. I strongly oppose any such measure and remind you that these vaccines are currently not approved for uptake in children ages 5-17 by the United States Food and Drug Administration (FDA); rather they have been authorized by the FDA under an Emergency Use Authorization (EUA). Per federal law as referenced below, any product licensed under an EUA requires that citizens and therefore in the case of minor children, their parents/legal guardians, have the option to accept or refuse the product. These so called "vaccinations" are little more than a monopolistic effort to control and cull the population of the earth. Numerous scientists and doctors have been on record stating the facts only to be silenced by the lapdog media and social media formats. We are headed down a dark road and your board are knowingly or unknowingly being used to help harm, injure and or kill unsuspecting and frightened people who do not do their own research. By using this bioweapon labeled as a vaccine on the children of Nevada you sentence us all to a bleak future living under technocratic tyranny.

Do what is right! Refuse to comply with this mass propaganda campaign and do not allow the technocratic billionaires to use this eugenics program to sterilize the world.

Please research actual data that shows the horrific side-effects of these RNA type of vaccines that have not gone through the rigorous

testing that other vaccines have completed.

Finally, please let's stop the criminal madness by withholding proven therapeutics to actually TREAT COVID with drugs that have been

approved by the FDA years ago (i.e. Ivermectin & Hydroxychloroquine). The FDA will not approve them for the TREATMENT of COVID

because Bill Gates and Tony Fauci will lose millions of dollars and the power on which they thrive.  
Millions of lives could have been

Dear Dr. Jon Pennell, DVM; Dr. Jeffrey Murawsky, MD;  
Dr. Trudy Larson, MD; Dr. Monica Ponce', DDS; Judith  
Bittner and Charles Smith,

I am contacting you today about any current or future consideration by the Nevada Board of Health to require that children receive COVID vaccines as a requirement for school enrollment and attendance in the state of Nevada. I strongly oppose any such measure and remind you that these vaccines are currently not approved for uptake in children ages 5-17 by the United States Food and Drug Administration (FDA); rather they have been authorized by the FDA under an Emergency Use Authorization (EUA). Per federal law as referenced below, any product licensed under an EUA requires that citizens and therefore in the case of minor children, their parents/legal guardians, have the option to accept or refuse the product.

Please remember your training in pathology, virology, biology, and immunology. Our bodies and those of our children know how to handle a virus. This virus has not been isolated in humans or in a lab. BUT, the vaccine studies that the NIH was ordered to stop caused damage and death to all of the animal test subjects! With all due respect, do NOT subject children to the same fate.

Sincerely,

Dr. Layne Linebaugh

Dr. Jon Pennell, DVM; Dr. Jeffrey Murawsky, MD; Dr. Trudy Larson, MD; Dr. Monica Ponce', DDS; Judith Bittner and Charles Smith,

My name is Marie Holmes. I am a concerned parent, and I am contacting you today about any current or future consideration by the Nevada Board of Health to require that children receive COVID vaccines as a requirement for school enrollment, attendance, or participation in school sports in the state of Nevada. I strongly oppose any such measure and want to remind you that these vaccines are currently not approved for children ages 5-17 by the U.S. Food and Drug Administration (FDA); rather they have been authorized by the FDA under an Emergency Use Authorization (EUA). Per federal law, as referenced below, any product licensed under an EUA requires that citizens and therefore in the case of minor children, their parents/legal guardians, have the option to accept or refuse the product.

Parents should be in charge of the decision to vaccinate their children (with the advisement of their pediatrician). The school districts nor any governmental agency should be involved in this decision, and it should not be forced upon families. As it is well known, Covid does not pose a severe threat to children and young adults. It would be unconscionable to force a vaccine on our youth for something that they are not truly at risk for, when we do not have the full scope of the side effects it may cause them at a later date.

Thank you,  
Marie Holmes
