Subject: Vaccine mandate
Date: Tuesday, August 17, 2021 5:58:23 PM

Please, please conform to sensibility. I was ashamed to see that Nevada is one of the handful of states that account for 51% of hospitalizations. I had to permanently close my cafe business after 15 years because of covid, my eighth grade granddaughter struggled through 18 months of online school—she’s an auditory learner. This is not an unusual situation and im only relieved that we have comfortable food and shelter. People have chosen to prolong this pandemic —our agencies, our govt needs to display the courage to mandate
