ATTN: NV State Board of Health,
Governor of Nevada
TMCC President
UNR President

RE: NV State Board of Health
Emergency Meeting Regarding Mandatory Covid Vaccines for
NV higher education.

I am writing to you today as a young woman about to start my first year of college and I STRONGLY disagree with mandating a vaccine for college students. Starting my first year of college already comes with many changes and challenges in and of itself. Covid has also added another layer of mandatory mask wearing at school and now, a possibility of mandating an emergency non FDA approved vaccine for me to attend in person college and pursue my degree. As the research has shown young people have the highest chance of recovering from Covid-19 and if they get it will have anti bodies to fight against getting in the future. I would like the ability as a young adult with my health care provider to make the choice whether or not the vaccine is the right decision for me. Please consider not mandating vaccines to attend in person college.

Sincerely,

Grace Hackbusch
Reno, NV
