I am adamantly opposed to any mandated vaccine for anyone at any age! This is inhuman and barbaric to even entertain this idea! The young people are the least vulnerable, especially the very young as their survival rate is 99.997%. . Listen to real medical doctors explain to you why this should never take place. Go to the below link for the truth about the Covid vaccine. This would be outright murder for our children. Just exactly, what is your 'real' agenda?
