Subject: Mandated Vaccination Meeting
Date: Monday, August 16, 2021 2:19:44 PM

Good Afternoon,

My name is Brian Phares and I am strongly opposed to the requiring the COVID-19 vaccine to be used on our Nevada Students. Please place my opposition in record.

While I am not opposed to the use of vaccinations of children (all of my children are current on the current CCSD mandated ones), I am opposed to rushing things without having all of the information. The drug has yet to receive FDA approval and is no more than a science experiment at this time. By making this decision you are forcing compliance or exiling the child from the public school system. I feel this is not a decision that this board should rule on without having all of the information in front of them. I can cite countless violations that this poses to the children and their families however I am certain you have received many of those emails, letters, or phone calls. I feel this board needs to take a hard look at this before they make a decision that is going to put our children at risk.

Thank you for your time,

Brian Phares, RN
