To whom it may concern,

The Nuremberg Code established 1945-46 prohibits any body forcing medical experiments on any citizen....since the covid has not been isolated or any of it's so called variants by the CDC and FDA the masks and or any vaccine is and should be considered experimental...to force or dictate and or mandate any mask or untested and unproven drug on anyone is a direct violation of that code and you will be held in charge of endangering human life because you do not have their informed consent.... Be aware of the rights you're stepping on...we the people have the right to choose our medical and our pursuit of happiness....that doesn't break any law.....mandates edicts and or forced vaccines are not law in these United STATES
