Subject: Unmask our Kids! And stop pushing the vaccine agenda!
Date: Thursday, August 19, 2021 12:41:11 PM

Please try to understand and comprehend that Corona Virus like the flu and cold are transmissible with ANIMALS!!! Smallpox could be eliminated because it does cross to animals. Because Covid and flu can pass to animals, there will never be a cure. It will always be here. We will have to take vaccines for the rest of your lives. If you really cared, you would help people get healthy and fit. You are going to kill people with your mask mandate and vaccine BS. You will have blood on your hands.
