Hello, my name is Beth Whitman and I would like to have my public testimony added to the 8/20/21 agenda. I oppose medical requirements on Nevada college students. The Nuremburg Code established 1945-46 prohibits any body forcing medical experiments on any citizen... It is a violation of the 1st amendment to require anyone to violate his or her religious beliefs in order to participate in society and especially at publicly-funded schools. No one should be coerced into taking an experimental pharmaceutical, or any type of pharmaceutical for that matter! Thankyou
