Greetings,

I'm writing to implore you to institute a vaccination mandate for students to attend in-person school.

Please do not give into the disinformation campaigns about vaccinations that are taking advantage of the vulnerable - taking advantage of our fear and panic and desire to find a quick return to normal.

Every decision we make that does not prioritize the welfare of our community extends the length and impact of this pandemic.

Many thanks for your careful consideration,
Molly Appel, Assistant Professor at Nevada State College

Molly Appel, Ph.D, M.S.T.

Assistant Professor of English

School of Liberal Arts & Sciences
