Subject: Emergency Meeting
Date: Thursday, August 19, 2021 7:50:16 PM

Dear J.P. Filippi,

It is my understanding that the emergency meeting tomorrow will discuss Mandates for the Experimental vaccine. This is my opinion. I oppose mandatory Covid-19 vaccines for our Nevada college students. Our students deserve to maintain their constitutionally guaranteed right to say “no” to drugs for any reason. It is a violation of Nuremberg Code to force any one to participate in a medical experiment (and with a non-FDA approved drugs, these vaccines qualify as experimental). It is a violation of the 1st amendment to require anyone to violate his or her religious beliefs or personal beliefs in order to participate in society and especially at publicly-funded schools.

Even if the Supreme Court did not take up the case for University Students in Indiana doesn't meant they won't take up other cases concerning forced vaccination in the future.

With so many vaccine injury cases/deaths in the VAERS system it would be prudent to wait til there has been sufficient time to see the long term effects of this experimental vaccine which doesn't seem to have a great track record given the amount of break through cases and injuries.

I thank you for your time in reading my thoughts.

Sincerely,
Holly Gardner
Parent of a UNR Student
