Hello board members

I am an incredibly proud mother and mother-in-law of two current students at T.M.C.C. In November of 2020 my father passed away at St.. Mary's hospital alone due to covid 19. My mother lost her husband and best friend, my brother and I lost our dad and my children and niece and nephews lost there grandpa. My brother got covid 19 as well but survived. So my amazing daughter and son-in-law went and got vaccinated then came to my mother and I and told us she had made an appointment for myself and my mother to be vaccinated as well because the thought of losing anyone else she loved was more than she could take. Also because she felt we couldn't comment on the state of the country if we weren't going to be a part of the solution by getting vaccinated to help stop the disease that had taken such an important part of our family. So board members please mandate that NSHE be a part of the solution and help stop this from taking someone else's loved one.

Thank You

Jody Price
A proud parent
