Subject: State Employees Mandatory Vaccinations
Date: Sunday, September 5, 2021 8:09:21 AM

To whom it may concern,

forcing state employees especially in the Dept. of Corrections to be vaccinated will result in a mass number of terminations and resignations.

At this moment there are numerous vacancies and officers are having to work compulsory weekly double shifts, with free staff there are also unfilled vacancies which puts pressure on the current staff to cover the extra work load.

If you force this issue, you will find that prisons will have to be closed and inmates released early due to lack of staffing. Is this good for the health and wellbeing of the residents of Nevada ?

Whilst I understand you are been pressured by the governor to force vaccinations; you may want to consider if your actions are a violation of the Nuremberg Code, until the manufacturers release a detailed list of the ingredients, which currently as it is under emergency authorization they do not have to do, you can consider it a breach.

Use your common sense don't succumb to political pressure in what will amount to a losing proposition for the residents, employees and inmates of the State of Nevada.

Thank you for your time

R. Douglas
