IdeaPosted	Yes
ResourcesRequired	No
SpecificTopic	Covid-19 Vaccine Mandate for All NSHE Students
IdeaTitle	Mandated Vaccines is illegal when under EUA.
IdeaDescription	First of all, it is against human rights to require that we must get a vaccine. Second of all, it is extremely unethical to require EUA vaccines to attend school. I believe this is wrong and will not stand for it but I will also not be punished, by not being able to enroll. The Vaccine that has full fda approval is the Pfizer BioTech Comirnaty not the Pfizer BioTech Covid-19 Vaccine, thus making it illegal to mandate for schools & workplaces under 21 U.S. Code Sec.360bbb-3(e)(1)(A)(ii)(III), "authorization for medical products for use in emergencies," it is unlawful to deny someone a job or an education because they refuse to be an experimental subject. Instead, potential recipients have an absolute right to refuse EUA vaccines. In this regard, I find that is completely unethical & immoral to mandate this vaccine for all NSHE students to enroll for spring 2022 semester. Please, for the love of god, realize that this is unfair and immoral, not to mention stressful as a young student who is invested in their education.
