

I, \_\_\_\_\_, am being mandated (forced) by the State of Nevada; Governor Steve Sisolak; the State of Nevada Department of Health and Human Services, Division of Public and Behavioral Health; Jon Pennell, DVM (Chair); Jeffery Murawsky, MD; Monica Ponce, DDS; Charles Smith; Judith Bitner, RN; Trudy Larson, MD; the Nevada Department of Corrections; Charles Daniels, Director of NDOC; High Desert State Prison and Calvin Johnson, Warden of NDOC to take one of the currently available COVID-19 vaccines as a condition of maintaining my employment with the Nevada Department of Corrections.

This is an arbitrary decision made by the above named individuals to enforce a decision they made concerning my health and my body.

Of the three vaccines that are available to the public to fight the COVID-19 infection only one has gained final FDA approval. However, this was done in a hasty and rushed manner. Previous vaccine trials have taken many years to complete and be verified but somehow the Pfizer vaccine can be developed, tested and gain final approval by the FDA in less than one year. The other 2 vaccines that are available (Moderna and Johnson & Johnson) have not gained final approval from the FDA and therefore are only to be used under Emergency approval and cannot be mandated.

It is for these reasons that since the above named entities and individuals are mandating that I be given one of these vaccines I will hold any and all of them fiscally responsible and accountable for any and all complications and side effects physically, psychologically and emotionally that I develop as a result of being mandated to take this vaccine in order to maintain my employment with the Nevada Department of Corrections.

Signed \_\_\_\_\_

\_\_\_\_\_  
Steve Siolak, Governor
