Subject: Opposition on mandatory vaccination
Date: Tuesday, August 17, 2021 5:47:10 AM

I am Jonathon Fuentes and I strongly oppose mandatory vaccination for the covid 19 virus. I want my opposition to be recorded.

In reference to mandatory vaccination for students and all people:

There are multiple reports from doctors across the USA expressing caution and danger as the vaccine is still in experimentation phase. Human trials - what we are currently in- will end in 2022/2023.

From reports: Corona virus vaccines have been tried in the past on animal trials and have proven fatal to the animals when exposed to other subsequent viruses as the immune system eventually attacks the body.

Doctors are fearing this may occur in the fall and winter due to the use of the vaccine.

There's no government acknowledgement of those who have natural immunity after recovering from the virus. There are reports that doctors claim the natural immunity is showing superior to immunity through the covid vaccine. It's not a normal vaccine.

There are new reports that the vaccine is only 40% effective as vaccinated people are still getting sick and passing the virus on to others- Negating the purpose of the vaccine. The CDC is reporting over 10,000 deaths from the virus since being released under an EUA.

Israel is one the most vaccinated countries and is shutting down again due to its high infection rate- showing vaccine ineffectiveness.

Natural immunity to coronavirus (Sars covid 1) are being reported years later after initial infection. A booster is being planned for those that have the covid vaccine (Sars covid 2)- illustrating its inefficiency.

The vaccine is not mandatory for the workers of the CDC, FDA or the WHO.

Mandating an experimental and potentially dangerous chemical on the masses in order to attend school, work or be free for a virus that has a 99.8 survivability rate for the majority of the country is wrong, unethical, evil, and violates a person's free choice and will in this country.

It's a violation of the First Amendment and the 4th Amendment.

Do not mandate these experimental vaccines.

Search Dr. Ryan Cole; Dr. Dan Stock, Dr. Simone Gold; Dr. Vladimir Zelenko; Dr. Peter McCullough, Dr. Martin Kulldorf, Dr. for references and reports.
