Subject: Written comments college vaccine mandates
Date: Tuesday, August 17, 2021 2:25:41 PM

I would like to submit public comments for Friday regarding the vaccine mandate for colleges.

Good morning. My name is Alexandra Armstrong and I am a parent in Clark county. I understand you will pass and require this shot regardless of our objections today but I have to say, if this shot actually made you immune and stopped the spread then it would make sense to mandate. But it doesn't stop the spread or infection! (my fully vaccinated family friend just tested positive with symptoms) You can not mandate a pharmaceutical drug that comes with risks! Please think about this!

Remember that 18 year old Clark county girl who needed THREE brain surgeries after taking the same experimental drug you want to mandate?! With all due respect where there is risk, there must be choice. Listen to the parents we are begging you. Do not mandate this ineffective pharmaceutical product

Thank you!
