---

To Whom IT May Concern:

This is completely Un American! This is a Non Approved FDA Vaccine. If you want to MANDATE something and believe that MASKS work, then MANDATE that!!

Go to VARS and see the latest Deaths and Injury's to Children and these Vaccines! There's no way to know what can happen or the long the effects these Fast Track driven emergency Vaccines are or may have on our Children.... It's too soon. These Mandates need to stop and Free Choice needs to Prevail!

Sincerely,  
Alana Morgan
